John Dewey's my pedagogical creed outlined his beliefs in regard to teaching and learning in this volume prominent contemporary teacher educators such as Diana Hess, Geneva Gay, and O. L. Davis follow in Dewey's footsteps articulating their own pedagogical creeds as they relate to educating about social issues through personal stories. Each contributor reveals the major concerns, tenets, and interests behind their own teaching and research, including the experiences underlying their motivation to explore social issues via the school curriculum. Rich with biographical detail, the importance of teaching social issues combines diverse voices from curriculum theory, social studies education, science education, and critical theory, providing a unique volume relevant for today's teachers and education scholars.

Analyzing Social Media Networks with NodeXL offers backgrounds in information studies, computer science, and sociology. This book is divided into three parts: analyzing social media, NodeXL tutorial, and social media network analysis case studies. Part I provides background in the history and concepts of social media and social networks. Also included here is social network analysis, which flows from measuring to mapping and modeling collections of connections. The next part focuses on the detailed operation of the free and open source NodeXL extension of Microsoft Excel, which is used in all exercises throughout this book. In the final part, each chapter presents one form of social media, such as e-mail, Twitter, Facebook, Flickr, and YouTube. In addition, there are descriptions of each system, the nature of networks when people interact, and types of analysis for identifying people, documents, groups, and events. Walks you through NodeXL while explaining the theory and development behind each step, providing takeaways that can apply to any SNA. Demonstrates how visual analytics research can be applied to SNA. Tools for the mass market includes case studies from researchers who use NodeXL on popular networks like email, Facebook, Twitter, and Wikis.
