this book investigates the complex interactions through experiencing drama of readers
and audiences in the english renaissance around 1500 an absolute majority of
population was illiterate henry viii s religious reformation changed this cultural structure
of society the act for the advancement of true religion of 1543 which prohibited the
people belonging to the lower classes of society as well as women from reading the

bible rather suggests that there already existed a number of these folks actively engaged in reading the act did not ban the works of chaucer and gower and stories of men s lives good reading for them the successive sovereigns educational policies also contributed to rising literacy this trend was speeded up by london s growing population which invited the rise of commercial playhouses since 1567 every citizen saw on average about seven performances every year that is about three per cent of london s population saw a performance a day from 1586 onwards merchants appearance in best seller literature began to increase while stage representation of reading writing scenes also increased and stimulated audiences towards reading this was spurred by standardisation of the printing format of playbooks in the early 1580s and play minded readers went to playbooks eventually to create a class of playbook readers late in the 1590s at last playbooks matched with prose writings in ratio to all publications parts i and ii of this book discuss these topics in numerical terms as much as possible and part iii discusses some monumental characteristics of contemporary readers of chapman ford marston and shakespeare

that very great play pericles as t s eliot called it poses formidable problems of text and authorship the first of the late romances it was ascribed to shakespeare when printed in a quarto of 1609 but was not included in the first folio 1623 collection of his plays this book examines rival theories about the quarto s origins and offers compelling evidence that pericles is the product of collaboration between shakespeare and the minor dramatist george wilkins who was responsible for the first two acts and for portions of the brothel scenes in act 4 pericles serves as a test case for methodologies that seek to define the limits of the shakespeare canon and to identify co authors a wide range of metrical lexical and other data is analysed computerized stylometric texts are explained and their findings assessed a concluding chapter introduces a new technique that has the potential to answer many of the remaining questions of attribution associated with shakespeare and his contemporaries

this slight volume is addressed not to shakespearean specialists but rather to the general public my chief purpose has been to view shakespeare's manipulation of his clergy the last three chapters deal with ancillary problems two articles in this collection have already been published shakespeare's cardinals and bishops in the crozer quarterly april 1950 shakespeare's interest in harsnet's declaration in publications of the modern language association september 1952 i appreciate the editors permission to reprint these essays in the present volume i also thank professors gerald eades bentley and lily bess campbell for encouragement and advice during the writing of the first fifth and last pieces in this collection neither is however to be held responsible for any errors discovered by reviewers all of the essays in this volume except the first were written either at the folger shakespeare library in 1950 or at the huntington library in 1952 i thank the directors and staffs of both libraries for their many exceptional kindnesses miss mary neighbour of oxford has placed me further in her debt by typing the completed collection
