first published in 1997 this volume is a collection of studies that look at the conceptual framework undertaken initially for the uk s accounting standards committee asc and to consider how far the views expressed in them have stood the test of time as standard setters around the world have followed in the fasb s footsteps

covering all the accounting issues and reporting standards ias ifrs that an accounting student needs to know

this text provides a fresh decision usefulness approach that will enhance students interpretative skills and take their understanding to the next level

financial accounting and reporting by bill collins and john mckeith takes an uncomplicated step by step approach to intermediate level financial accounting for specialist students its unique three part chapter structure builds up topic understanding without assuming too much prior knowledge offering a manageable way to master the subject one step at a time

financial accounting reporting and regulation is a vast subject area of huge global importance with interest rising significantly in the light of the ongoing global financial crisis the authors begin with a broad overview of the subject of accounting setting the stage for a discussion on the theoretical and practical issues and debates regarding financial reporting which are expanded on in the second part of the book this includes how to define the reporting entity recognition and measurement of the elements of financial statements fair values in financial reporting and the costs and benefits of disclosure the third part assesses the interest need and theories behind the accounting reporting and regulation industry while parts four and five look at the institutional social and economic aspects with issues such as accounting for environmental management and accounting regulation and financial reporting in islamic countries both issues of ever increasing importance this authoritative companion presents a broad overview of the state of these disciplines today and will provide a comprehensive reference source for students and academics involved in accounting regulation and reporting

the adoption by the accounting standards board of its statement of principles for financial reporting in december 1999 means that we now have an authoritative conceptual framework which should govern the production of british financial statements yet while the text of the statement is directed at members of the accounting profession students of accounting will need to understand the framework and its repercussions an introduction to modern financial reporting theory explains the content of the statement in an accessible language specifically for the student of accounting and finance this text will be of direct and practical

interest to students who need to understand the contents of the new framework which helps to explain why and how financial reporting is carried out why financial statements are prepared in the way that they are why accounting standards specify one method rather than another how the methods specified by accounting standards relate to each other how practice has developed and will continue to develop brian rutherford emphasizes and enlarges on the key features of the framework provides many more examples shows how the framework applies in practice and also offers some criticisms of its content the book clarifies to students why various methods and practices in accounting have evolved while illustrating how they relate to each other and to the underlying function of financial reporting this text will be essential reading on university and professional courses in advanced financial accounting particularly courses on accounting theory and financial reporting brian rutherford is professor of accounting at canterbury business school university kent at canterbury

solomon s guidelines first presented in 1989 achieved the unusual feat of bringing out of the closet of academic journals the need for accounting standards and impacting official policy in the uk with his conceptual framework against the historical macro level backdrop of britain s accounting standards committee and the evolved canon of gaap

comprehensive updated and balanced coverage to help the students understand financial reporting environment accounting standards and contemporary issues in company financial reporting such as accounting for changing prices segment reporting social accounting and reporting interim reporting value added reporting environmental reporting corporate governance reporting human resource accounting and reporting and global convergence of ifrs covers latest ideas researches and developments having taken place in the subject matter use of numerical illustrations diagrams and graphical exhibits to explain concepts principles and underlying theory contains literature and materials useful to researchers practicing managers accounting professionals and others interested in company financial reporting clear concise and student friendly presentation highly useful for post graduate students of universities and professional examinations to meet their syllabi requirement in courses like corporate financial reporting such as m com

mba ca icwa icsi and other professional courses

this book is concerned with the financial accounting and reporting of publicly owned corporations to their shareholders it examines the origins of financial accounting and reporting external influences on accounting and reporting practices as well as the measurement process

this volume more accounting changes is a revised and updated edition of herz s earlier work reflecting developments in financial reporting global developments regarding the use of international financial reporting standards current efforts at disclosure modernization and simplification by the sec and fasb and more developments in the field

now in its third edition this respected and widely used book provides an essential introduction to financial accounting and reporting for today s international business student written very much from the user rather than the preparer accounting perspective the book is ideally suited to international business and accountancy students it offers a non prescriptive a national approach together with an excellent understanding of comparative differences in accountancy practices the authors provide clear and comprehensive guidance to all the complex concepts and issues in accounting including double entry bookkeeping together with explanation of the more technical aspects of accounting transactions the book is highly international in focus being based on ifrs gaap but also using lots of real life company accounts from a wide range of worldwide companies as examples to enable students to see how the issues appear in practice

for over twenty five years the authors of international financial reporting and analysis have provided comprehensive insight into the intricacies of financial reporting this ninth edition has been updated throughout with an increased focus on ethics sustainability and corporate governance timely real world illustrations and activities give students a truly international perspective to successfully interpret and use ifrs standards in business this title is available with mindtap a flexible online learning solution that provides your students with all the tools they need to succeed including an interactive ereader engaging multimedia

practice questions assessment materials revision aids and analytics to help you track their progress
