fracture fatigue and other subcritical processes such as creep crack growth or stress corrosion cracking present numerous  
 open issues from both scientific and industrial points of view these phenomena are of special interest in industrial and civil  
 metallic structures such as pipes vessels machinery aircrafts ship hulls and bridges given that their failure may imply  
 catastrophic consequences for human life the natural environment and or the economy moreover an adequate management of  
 their operational life defining suitable inspection periods repairs or replacements requires their safety or unsafety conditions to  
 be defined the analysis of these technological challenges requires accurate comprehensive assessment tools based on solid  
 theoretical foundations as well as structural integrity assessment standards or procedures incorporating such tools into  
 industrial practice this volume is focused on new advances in fracture fatigue and structural integrity of metallic structural  
 components containing defects e g cracks notches metal loss etc and also on those developments that are being or could be  
 incorporated into structural integrity assessment procedures such as bs7910 r6 or api 579 1 asme ffs 1

commercial aircraft hydraulic systems shanghai jiao tong university press aerospace series focuses on the operational principles and design technology of aircraft hydraulic systems including the hydraulic power supply and actuation system and describing new types of structures and components such as the 2h 2e structure design method and the use of electro hydrostatic actuators ehas based on the commercial aircraft hydraulic system this is the first textbook that describes the whole lifecycle of integrated design analysis and assessment methods and technologies enabling readers to tackle challenging high pressure and high power hydraulic system problems in university research and industrial contexts commercial aircraft hydraulic systems is the latest in a series published by the shanghai jiao tong university press aerospace series that covers the latest advances in research and development in aerospace its scope includes theoretical studies design methods and real world implementations and applications the readership for the series is broad reflecting the wide range of aerospace interest and application titles within the series include reliability analysis of dynamic systems wake vortex control aeroacoustics fundamentals and applications in aeropropulsion systems computational intelligence in aerospace engineering and unsteady flow and aeroelasticity in turbomachinery presents the first book to describe the interface between the hydraulic system and the flight control system in commercial aircraft focuses on the operational principles and design technology of aircraft hydraulic systems including the hydraulic power supply and actuation system includes the most advanced methods and technologies of hydraulic systems describes the interaction between hydraulic systems and other disciplines

the police in hong kong is the first comprehensive study of the hong kong police force one of the largest police organizations in the world through detailed examinations of police practices and their value orientations professor jiao aims to develop knowledge about policing in hong kong and related social political and cultural conditions in which the police operate this work includes descriptions and analyses of the historical background of the hong kong police management of the 1997 handover of power from britain to china organizational structure and operation of the police force changes and reforms of the police over

the years impact of the bill of rights street police vs management police behaviors crime organized crime and vice problems control of corruption and misconduct with an emphasis on empirical evidence professor jiao relies heavily on his interviews with over 200 officers and on site observations of a variety of police activities for the form and content of this study as such this work fills a void in criminal justice and police studies as well as asian studies
