turning points challenges for western democracies in the 21st century centers around the strikingly under researched concept of turning points and its application in political science including various theories fields and sub disciplines the chapters provide theoretical discussion and conceptual clarity by distinguishing a set of turning points at different analytical levels based on a wide range of case studies the authors illustrate where when and how different types of turning points occur or not against the backdrop of current challenges in and for western democracies the conceptual and empirical variety of the volume allows scholars and practitioners in policymaking to develop and apply their own frameworks when dealing with turning point dynamics

this readable survey on the history of missions tells the story of pivotal turning points in the expansion of christianity enabling readers to grasp the big picture of missional trends and critical

developments alicott examines twelve key points in the growth of christianity across the globe from the jerusalem council to lausanne 74 an approach that draws on her many years of classroom teaching each chapter begins with a close up view of a particularly compelling and paradigmatic episode in christian history before panning out for a broader historical outlook the book draws deeply on primary sources and covers some topics not addressed in similar volumes such as the role of british abolitionism on mission to africa and the relationship between imperialism and mission it demonstrates that the expansion of christianity was not just a western driven phenomenon rather the gospel spread worldwide through the efforts of both western and non western missionaries and through the crucial ministry of indigenous lay christians evangelists and preachers this fascinating account of worldwide christianity is suitable not only for the classroom but also for churches workshops and other seminars

turning points challenges for western democracies in the 21st century centers around the strikingly under researched concept of turning points and its application in political science including various theories fields and sub disciplines the chapters provide theoretical discussion and conceptual clarity by distinguishing a set of turning points at different analytical levels based on a wide range of case studies the authors illustrate where when and how different types of turning points occur or not against the backdrop of current challenges in and for western democracies the conceptual and empirical variety of the volume allows scholars and practitioners in policymaking to develop and apply their own frameworks when dealing with turning point dynamics

dimensions of human behavior the changing life course presents a current and comprehensive examination of human behavior across time using a multidimensional framework author elizabeth d hutchison explores both the predictable and unpredictable changes that can affect human behavior through all the major developmental stages of the life course from conception to very late adulthood aligned with the 2015 curriculum guidelines set forth by the council on social work education cswe the sixth edition has been substantially updated with contemporary issues related to gender and sexuality race and ethnicity and social class and disability across the lifespan
