ecological crises have never been higher on the international political agenda however ecological thought and international relations theory have developed as separate disciplines this ground breaking study looks at the relationship between ecological thought and international relations theory arguing that there are shared concerns

peace co operation and security the authors ask what ecological crisis can teach ir theorists as well as what ecological perspectives have been adopted by governments and international ngos

w r d fairbairn 1889 1964 challenged the dominance of freud s drive theory with a psychoanalytic theory based on the internalization of human relationships fairbairn assumed that the unconscious develops in childhood and contains dissociated memories of parental neglect insensitivity and outright abuse that are impossible the children to tolerate consciously in fairbairn s model these dissociated memories protect developing children from recognizing how badly they are being treated and allow them to remain attached even to physically abusive parents attachment is paramount in fairbairn s model as he recognized that children are absolutely and unconditionally dependent on their parents kidnapped children who remain attached to their abusive captors despite opportunities to escape illustrate this intense dependency even into adolescence at the heart of fairbairn s model is a structural theory that organizes actual relational events into three self and object pairs one conscious pair the central ego which relates exclusively to the ideal object in the external world and two mostly unconscious pairs the child s antilibidinal ego which relates exclusively to the rejecting parts of the object and the child s libidinal ego which relates exclusively to the exciting parts of the object the two dissociated self and object pairs remain in the unconscious but can emerge and suddenly take over the individual s central ego when they emerge the other is misperceived as either an exciting or a rejecting object thus turning these internal structures into a source of transferences and reenactments fairbairn s central defense mechanism splitting is the fast shift from central ego dominance to either the libidinal ego or the antilibidinal ego a near perfect model of the borderline personality disorder in this book david celani reviews fairbairn s five foundational papers and outlines their application in the clinical setting he discusses the four unconscious structures and offers the clinician concrete suggestions on how to recognize and respond to them effectively in the heat of the clinical interview incorporating decades of experience into his analysis celani emphasizes the internalization of the therapist as a new good object and devotes entire sections to the treatment of histrionic obsessive and borderline personality disorders

bringing together leading scholars from asia and the west this book investigates how the dynamics of china s rise in world politics contributes to theory building in international relations ir the book demonstrates how the complex and transformative nature of china s advancement is also a point of departure for theoretical innovation and reflection in ir more broadly in doing so the volume builds a strong case for a genuinely global and post western ir it contends that non western countries should not

only be considered potential sources of knowledge production but also original and legitimate focuses of IR theorizing in their own right

beginning with the basic premise that public relations can best be understood as a specialized type of communication the contributors to this volume establish public relations as a vital and viable realm for communication research and theory development through the application of communication theories they attempt to explain and predict public relations practices and then use these practices to develop communication theories their discussions fall into three distinct categories metatheory theory and examples of applications of theories an ideal volume for professionals and students in communication journalism and related fields

international relations theory a critical introduction is an innovative new textbook which introduces students to the main theories in international relations it also deconstructs each theory allowing students not only to understand them but also to critically engage with the assumptions and myths that underpin them it does this by using five familiar films as tools for first understanding each theory and then for understanding the myths that make them so persuasive for some people key features of this textbook include coverage of the main theories and traditions including realism neo realism idealism and neo idealism liberalism constructivism postmodernism gender globalisation and the end of history innovative use of narratives from five famous films that students will be familiar with lord of the flies independence day wag the dog fatal attraction and the Truman Show clearly written providing students with boxed key concepts guides to further reading and thinking this breakthrough textbook has been designed to unravel the complexities of international relations theory in a way that allows students a clearer idea of how the theories work and some of the myths that are associated with them

sage course companions provide students with an insider's guide into how to make the most of their undergraduate courses and extend their understanding of the key concepts covered ideal for anyone new to the study of international relations or looking for a refresher this course companion includes a comprehensive introduction to the competing theories at the heart of the discipline as well as hints and tips on how to apply them when tackling coursework or examinations written in a straightforward and clear style it is designed to augment rather than replace existing textbooks for the course and provides pointers to success in course exams and written assessment exercises easy access to the key theories in international relations guidance on the essential study skills required to pass the course help with developing critical thinking taking it further sections that suggest how readers can extend their thinking

beyond the received wisdom

in their groundbreaking a primer of object relations jill savege scharff and david e scharff answered readers questions about this burgeoning field in remarkably clear and readable prose it is difficult to imagine any other team of authors who could provide such a comprehensive survey of the broad applications of object relations theory and in the second edition of this authoritative work the scharffs draw from their years of clinical experience to create an inclusive and up to date manual for object relations theory that is certain to become a classic in the field

this book seeks to offer a general interpretation and critique of both methodological and substantive aspects of international theory

this unique text makes object relations and self psychology accessible to readers not familiar with recent psychoanalytic literature the issues ideas and controversies of these models of the person are clearly presented and readable

the fourth edition of working with families presents an innovative model for choosing specific intervention methods that meet the discriminate level of need of a particular family thomas p holland has been added as a second author to help update and maintain the most current text possible

musgrave and anniss begin their discussion by broadening the relationship focus from the traditionally defined mechanistic roles between customer employee and organization to encompass the elements of structure emotion organization and control a shift that enables the reader to visualize both the dynamic nature of these interactions and their intangible aspects the authors continue the process of strategic analysis by scoping aligning and profiling the relationship these techniques allow the individual to define the interaction environment bring together its perspectives and isolate issues of contention or conflict

dr david scharff explores the role of sexuality in human relationships by combining his extensive experience in individual marital family and sex therapy with theoretical contributions from object relations theory and child development

this book is a synthetic historiography of present day international relations theory a critical analysis of the continuing diversity and complexity of enduring themes through a sustained focus on the analysis of the empirical evidence accumulated by social scientists special attention is given to key historical changes in theoretical approaches over the past half century with full recognition of the contestation over state based

theory and the changing fortunes of contemporary approaches the book suggests that viable theories must transcend current intellectual fashion and attempts to bring together theory and practice while demonstrating the difficulty of assessing competing theories it addresses multiple strands of thought and assumes that their development cannot be understood in isolation from each other
