latest and revised edition of solutions of icse essential mathematics bharti bhawan das gupta for class 8 for 2021 examinations

studies methods for making decisions with multiple conflicting criteria optimizing engineering and management outcomes

in the competitive world of modern engineering rigorous and definite design methodologies are needed however many parts of engineering design are performed in either an ad hoc manner or based on the intuition of the engineer this is the first book to look at both stages of the design process conceptual design and detailed design and detail design methodologies for every step of the design process the following analytic design methodologies are introduced and their usefulness is explored with many mathematical and practical examples axiomatic design optimization design of experiments robust design structural optimization

dynamic response optimization and multidisciplinary optimization case studies show how practical design problems can be solved with analytic design methods students will find this book an excellent introduction to the subject the book s practical focus will interest practising engineers as a practical handbook of design

this two volume set ccis 951 and ccis 952 constitutes the proceedings of the 13th international conference on bio inspired computing theories and applications bic ta 2018 held in beijing china in november 2018 the 88 full papers presented in both volumes were selected from 206 submissions the papers deal with studies abstracting computing ideas such as data structures operations with data ways to control operations computing models from living phenomena or biological systems such as evolution cells neural networks immune systems swarm intelligence
