public policy is a broad and interdisciplinary area of study and research in the field tends to reflect this yet for those teaching and studying public policy the disjointed nature of the field can be confusing and cumbersome this text provides a consistent and coherent framework for uniting the field of public policy authors kevin b smith and christopher w larimer offer an organized and comprehensive overview of the core questions and concepts major theoretical frameworks primary methodological approaches and key controversies and debates in each subfield of policy studies from the policy process and policy analysis to program evaluation and policy implementation the third edition contains the latest scholarship and approaches in the field including new and expanded coverage of behavior economics the narrative policy framework implementation studies the policy regime approach and field experiments now with an appendix of sample comprehensive exam questions the public policy theory primer remains an indispensable text for the systematic study of public policy

young people who are considered vulnerable or at risk are a particular target of various policies schemes and interventions but what does vulnerability mean interrogating conceptions of vulnerable youth explores this question in relation to various policy fields that are relevant to young people as well for how this plays out in practice and how it is experienced by young

people themselves what makes this book unique is that most authors had the opportunity to jointly explore these issues during a two day workshop and their chapters are informed by their cross agency and cross discipline discussions making for a nuanced and thoughtful set of contributions this collection is highly recommended for researchers and research students in the social sciences as well as professional staff working in youth policy and youth services in government departments and in ngos those who are most vulnerable should receive our greatest moral attention however the translation of generalised moral principles into effective policy and programs has never been easy political interests have invariably intervened leading to complex debates about how vulnerability should be defined classified measured and represented in recent years these debates have become further complicated as nation states around the world have preached austerity this timely book suggests that the responsibility for protecting the vulnerable cannot be left to individuals but demands collective action through institutions such as education health and welfare it examines some of the ways in which public policies and programs represent those who are vulnerable involving a range of assumptions about the social economic and political conditions that produce their vulnerabilities from the foreword by professor fazal rizvi

this book presents a representative collection of papers on international trade one of the most dynamic sub fields in economics the contributions range over all the major areas of research including articles on the geographical aspects of international trade by paul krugman and alan deardorff on dynamic stochastic economies by avinash dixit and on endogenous growth by gene grossman and elhanan helpman in addition to the theoretical contributions the book also contains work on important policy issues such as auction quotas discussed by kala krishna and the role of government in economic development by anne krueger also included is an assessment by bill ethier of the theoretical achievements of a leading authority in international trade theory ronald jones in whose honour the essays were written

this innovative book provides clear and straight forward strategies which help students to understand the conventions of academic assignments and what lecturers expect from their work simplify your study is organised around nine core units which focus on the sticking points of university study including organisation and planning reading and note making strategies producing essays critical thinking delivering presentations and preparing for exams packed with tried and tested strategies for success this essential resource will help students of all disciplines and levels to achieve their academic potential

in the present text the author deals with both conventional and new approaches to trade theory and policy treating all important research topics in international economics and clarifying their mathematical intricacies the textbook is intended for undergraduates graduates and researchers alike it addresses undergraduate students with extremely clear language and illustrations making even the most complex trade models accessible in the appendices graduate students and researchers will find self contained treatments in mathematical terms the new edition has been thoroughly revised and updated to reflect the latest research on international trade

the great depression of the 1930s gave birth to a branch of economics christened macroeconomics this highly readable book presents an unconventional and timely perspective on macroeconomics the interplay of theory and policy in a historical context

this edition includes 337 more entries bringing the total to over 1 400 thumbnail sketches of economists who have contributed to the literature over the past three centuries

a reference tool divided into three sections which correspond to the types of conclusions possible regarding the relationship between political theory and political analysis complementary

integral and mutually exclusive

young children as citizens explores how young children birth to 12 years of age can and should participate in civic life it reflects new images of young children as social actors together with the increased interest in children's rights in the public sphere the contributors are early childhood researchers pedagogues children and policy makers from australia and europe they present a rich diversity of research based case studies in which policy makers and educators have listened to young children's views on public issues and responded in respectful and ethical ways young children as citizens is a unique resource for policy makers those working in children's services and child advocates it shows how best to consult young children and it presents a range of arguments that consulting young children about policies and decisions that affect them supports and enhances a vigorous democratic society students undergraduate and postgraduate teachers and researchers in early childhood studies can use individual chapters of young children as citizens selectively to explore issues of increasing complexity in different courses the book would be a good set text for honours and master's programs that address issues of children's rights

this thought provoking reader draws to 28 representative essays from major schools of thought on the forces that shape american foreign policy providing a basis for both the explanation and evaluation of that policy it includes four new essays tied to critical topics such as emerging democracies executive congressional relations civil military relations and foreign policy decisions being driven by business interests
