this interpretation of classical sources of democratic theory describes routes to self government it meshes interpretations of aristotle s political and ethical writings and the republican ideals of jefferson and madison with insights derived from modern sciences of complexity

over the past decades many different kinds of models have been developed that have been of use to policy makers but until now the different approaches have not been brought together with a view to enhancing the systematic unification and evaluation of these models this new volume aims to fill this gap by bringing together four decades worth of work by s i cohen on economic modelling for policy making work on older models has been rewritten and brought fully up to date and these older models have therefore been brought back to the fore both to assess how they influenced more recent models and to see how they could be used today the

focus of the book is on models for development policies in developing economies but there are some chapters that relate to economic policies in transition and developed economies the policy areas covered are of typical interest in developing and transition economies they include those relating to trade liberalization reforms sustainable development industrial development agrarian reform growth and distribution human resource development and education public goods and income transfers each chapter contains a brief assessment of the empirical literature on the economic effects of the policy measures discussed in the chapter the book presents a platform of economic modelling that can serve as a refresher for practising professionals as well as a reference companion for graduates engaging in economic modelling and policy preparations

this book is the first of its kind to engage explicitly with the practice of conceptual history as it relates to the study of the middle ages exploring the pay offs and pitfalls of using concepts in medieval history concepts are indispensable to historians as a means of understanding past societies but those concepts conjured in an effort to bring order to the infinite complexity of the past have a bad habit of taking on a life of their own and inordinately influencing historical interpretation the most famous example is feudalism whose fate as a concept is reviewed here by e a r brown nearly fifty years after her seminal article on the topic the volume s contributors offer a series of case studies of other concepts colony crisis frontier identity magic networks and politics that have been influential particularly among historians of britain and ireland in the later middle ages the book explores the creative friction between historical ideas and analytical categories and the potential for fresh and meaningful understandings to emerge from their dialogue

combining theoretical sophistication with a fundamental comprehension of the political institutions of the usa this study aims to demystify the workings of the united states supreme court and its place in democracy

the western tradition of a sovereign state which roots go back to antiquity inherited a centre vouching for virtuous moderation this book compares this tradition with what it quintessentially objects to political extremes

regional development strategies are becoming more similar all around europe even though regional differences are more pronounced than ever and many european regions have become more autonomous actors this thesis of a peculiar standardized diversification of sub national space in the modern european union is the point of departure of this book based upon the analytical premises of stanford school sociological institutionalism sebastian m büttner studies regional mobilization in contemporary europe from a new and innovative perspective he highlights the importance of scientific expertise and global scientific models in contemporary regional development practice and exemplifies their significance with the example of region building in poland in the course of eu integration this new wave of regional mobilization is not just conceived as an effect of local national or european politics but as an expression of a larger conceptual shift in governing society and space this well researched and clearly argued book not only provides fresh insights into region building and regionalization in contemporary european space but also contributes to the new sociology of europeanization it will be an illuminating read for scholars and students in sociology european and eu studies international
