this handbook series includes several naturally occurring chemicals that exhibit biological activity these chemicals are derived from plants insects and several microorganisms volume i of this series is covers the theory and practice of the strategies for pest control and methods for detection moreover it presents extensive tables that provide the information you need to select the most appropriate bioassay for a particular plant growth regulator or hormone in addition to the chapters on bioassays volume i provides a solid introduction to the theory and practice of natural pesticide use including in depth discussions of integrated management systems for weed and pest control the state of the art use of computers in pest management and allelochemicals as natural protection guidelines on toxicological testing and epa regulation of natural pesticides are also detailed

seeds of change women cultivating food sovereignty in hawai i and aotearoa is organized thematically weaving together research from both locations to explore and compare women s roles and leadership in alternative food networks afns at the heart of this inquiry is how women s leadership functions as a form of resistance to industrial agro food systems within settler colonial contexts the book asks how do indigenous and marginalized women shape these resistances how do indigenous ecological worldviews inform both ancestral and contemporary food and agricultural practices as forms of decolonial praxis while afns are often framed as solutions to the failures of industrial food systems they have also been critiqued for reinforcing

elitism and exclusion this study foregrounds how indigenous women confront not only the violence of industrial agriculture but also inequities within afns themselves though situated in distinct political social and ecological contexts the strategies of women in hawai i and aotearoa offer transferable insights and best practices for other island communities and beyond the book is structured around three central themes women s leadership in afns the amplification of indigenous and marginalized voices and a solution oriented approach that shares lessons across oceania based on interviews with 48 women including farmers union leaders composters market organizers and educators the research reflects a wide spectrum of food system actors embedded in nonprofit and grassroots networks a core aim of the book is to generate an actionable toolkit and to ensure that the knowledge shared through these stories supports broader movements for food sovereignty and ecological justice
