drones and the law international responses to rapid drone proliferation presents innovative solutions to the controversial issues raised by the drones and a critical assessment of its growing use as a weapon system in modern warfare and privacy issues

building upon presentations given during the conference on disaster risk reduction for natural hazards putting research into practice held at university college london in november 2009 the articles collected in this book examine how natural hazards research is accessed and used by practitioners and decision makers and conversely how policy and practice inform research as with the conference this book successfully brings together views from humanitarian and development agencies academia business government and funding bodies it is rare to engage such a wide range of sectors in a discussion relating to the issues of disaster risk

reduction from a natural hazards perspective and the book captures this interaction and the resultant exchange of ideas thus providing an insight into how stakeholders respectively undertake or engage with natural hazards research collectively the articles highlight the need for greater dialogue understanding and collaboration between all these sectors if research is to be made relevant and generate significant impact on risk reduction policy and practice there is an urgent requirement to better understand the respective needs ways of working project timescales and funding mechanisms for disaster risk reduction as well as the challenges posed by institutional and organizational structures and functions these issues must be overcome to ensure that ultimately and most significantly discussions turn into positive practical actions so that research on natural hazards is relevant and applicable the book represents a step in that journey this book was published as a special issue of environmental hazards

exercise referral describes the process of consultation planning and instructing physical activity programmes and applying appropriate behaviour change strategies for clients presenting a range of low to medium risk medical conditions exercise management for referred medical conditions is the first book to integrate exercise prescription with the development of healthy behaviours and the promotion of physical activity and well being and provides students with an evidence based applied guide to becoming effective exercise referral practitioners the book draws upon the latest research and recommends best practices for creating referral pathways providing exercise programmes and engaging clients in health lifestyles covering the pathology medical management role of exercise and recommendations for programming in each case it discusses a range of conditions including obesity and type i and ii diabetes hypertension and dyslipidaemia asthma low back pain osteoarthritis and joint replacement rheumatoid arthritis and osteoporosis depression anxiety and stress disorders consistently organised and laden with pedagogical features including learning objectives key terms case studies future developments and chapter summaries no other book offers such a clear holistic model for exercise referral this is a vital resource for any student undertaking vocational courses in exercise referral and an important reference for exercise scientists physical therapists fitness professionals or local policy makers interested in the use of physical activity in healthcare

this book discusses privatization of law enforcement in relation to suspected corporate crime and recommends guidelines for successful fraud examinations there is a growing business for global auditing and local law firms to conduct internal investigations at client organizations when there is suspicion of white collar misconduct and crime this book reflects on the work by these private fraud examiners in terms of an evaluation of their investigation reports the book brings an original theoretical and methodological approach to investigations of white collar crime it develops the theory of convenience as an explanation for motive opportunity and willingness to commit and conceal white collar crime this theory is then related to the case studies structured in such a way as to allow the reader to use the text as a nonsequential reference source or guide to a set of connected issues the book illustrates the practice of privatization by cases and presents guidelines for successful fraud examination as an investigation can lead to conviction and incarceration this privatization of crime investigation feeds into the larger issue of privatization of policing the work will be a valuable resource for students academics and practitioners working in the areas of criminal justice corporate law and business

the domestic politics of terrorism lessons from the clinton administration explores the clinton administration s

development of a novel playbook by which to exploit terrorism for domestic political advantage focusing particularly on the importance of issue framing instrument selection and implementation strategies while americans were introduced to transnational terrorism long before the first world trade center bombing in 1993 it was clinton who first confronted large scale terrorism targeting americans both at home and abroad and who developed an invaluable template for future policymakers navigating a political landscape increasingly defined by high profile terrorist events

the expansion of the european union in may 2004 through the entry of ten countries from central and eastern europe has generated considerable media interest interest which was revived by further expansion in january 2007 when bulgaria and romania became the latest nations from the east to join rather than focus exclusively on changes within the eu labour market and related policy debates this book offers a careful grounded analysis of the social and cultural processes bound up with migration flows between britain and bulgaria placing these flows in the wider european perspective as such accession and migration will be of interest not only to migration scholars but also to policy makers at local national and international levels

corruption has long been identified as a governance challenge yet it took states until the 1990s to adopt binding agreements combating it while the rapid spread of anti corruption treaties appears to mark a global consensus a closer look reveals that not all regional and international organizations move on similar trajectories this book seeks to explain similarities and differences between international anti corruption agreements in this volume lohaus develops a comprehensive analytical framework to compare international agreements in the areas of prevention criminalization jurisdiction domestic enforcement and international cooperation outcomes range from narrow enforcement cooperation to broad commitments that often lack follow up mechanisms lohaus argues that agreements vary because they are designed to signal anti corruption commitment to different audiences to demonstrate such different approaches to anti corruption he draws on two starkly different cases the organization of american states and the african union contributing to debates on decision making in international organizations this work showcases how global governance is shaped by processes of diffusion that involve state and non state actors the book highlights challenges as well as chances linked to the patchwork of international rules it will be of great interest to students and scholars of ir theory global governance international organizations and regionalism

this report by the home office hm treasury the department for work and pensions and the office for national statistics has been produced as a cross departmental submission to the inquiry being conducted by the house of lords select committee on economic affairs into the economic impact of immigration in the uk the report includes chapters on public finance and net fiscal impacts macroeconomic impacts labour market productivity and skills impacts sectors and occupations demographic impacts the economic impact of illegal immigration improving immigration data and government policy on immigration the office for national statistics has also produced a separate statistical submission as a background paper to this report

traditional interfaces rely on graphic depictions and sight to convey information and respond to the user these are known as graphical user interfaces guis but designers must meet the challenge of designing new and creative interfaces that adapt to meet human needs on every level of the five senses

researchers in many fields are increasingly finding the bayesian approach to statistics to be an attractive one

this book introduces the reader to the use of bayesian methods in the field of econometrics at the advanced undergraduate or graduate level the book is self contained and does not require that readers have previous training in econometrics the focus is on models used by applied economists and the computational techniques necessary to implement bayesian methods when doing empirical work topics covered in the book include the regression model and variants applicable for use with panel data time series models models for qualitative or censored data nonparametric methods and bayesian model averaging the book includes numerous empirical examples and the website associated with it contains data sets and computer programs to help the student develop the computational skills of modern bayesian econometrics

trb s national cooperative highway research program nchrp report 710 practical approaches for involving traditionally underserved populations in transportation decisionmaking highlights tools techniques and approaches for identifying and connecting with populations that have traditionally been underserved and underrepresented in transportation decisionmaking

description based on first issue title from title page

quarterly journal of economic theory and policy
