warfare until the advent of steam power this book traces the development of

admiral yamamoto isoroku was the defining japanese naval commander of world war ii yamamoto s career in the imperial japanese navy started in the early years of the 20th century and he saw service in the russo japanese war being wounded in the battle of tsushima in 1904 he went on to study at harvard university and serve as a naval attaché in the inter war years an experience that was to give him a unique insight into the american psyche despite the success of his daring pre emptive strike on pearl harbor in 1941 that damaged the us pacific fleet and ushered in the pacific war yamamoto s subsequent handling of the japanese

combined fleet can be called into question the final campaign commanded by Yamamoto was that around Guadalcanal where Yamamoto's myth of excellence will be totally laid bare despite a considerable numerical advantage over the Americans. Yamamoto never brought this advantage to bear the result was a devastating defeat for the Imperial Japanese Navy and eventually the death of Yamamoto himself.

The AV-8B Harrier was and still is the only tactical aircraft that can deploy with the US Marine Corps on amphibious assault ships and provide air cover and close air support separate from large deck aircraft carriers having seen action during Operation Desert Storm in 1991 the Harrier II returned to the theatre from March 2003 as part of Operation Iraqi Freedom. In the initial conflict some 76 AV-8Bs were deployed providing more than 40 per cent of the 3rd Marine Air Wing's fixed wing offensive firepower around 60 of these aircraft were sea based aboard four Harrier carriers while a unit flew jets from Ahmed al Jaber in Kuwait. Unlike in 1991 when Harrier IIs employed unguided weapons 79 per cent of the ordnance dropped was precision guided this was primarily due to the AV-8B's upgrading to night attack or radar equipped configuration and the introduction of the Litening II targeting pod. Following the occupation of Iraq by coalition troops Harrier IIs remained in theatre supporting anti insurgent operations through to 2008 as part of OIF II VI.
