the international conference sustainable collaboration in business technology information and

innovation scbtii 2019 has brought together academics professionals entrepreneurs researchers learners and other related groups from around the world who have a special interest in theories and practices in the development of the field of digital economy for global competitiveness considering that at present technology and industry 4 0 are still a leading trend and offer great opportunities for global businesses the rise of industry 4 0 makes competition in the business world more attractive yet fierce opportunities and challenges for business development in industry 4 0 are becoming firm and it also provides businesses the possibility to compete globally companies that desire to enter this global competition should pay attention to customer benefits and business fairness in order to achieve sustainability in this digital economy this proceedings volume contains selected papers from this conference and presents opportunities to communicate and exchange new ideas and experiences moreover the conference provided opportunities both for the presenters and the participants to establish research relations and find global partners for future collaboration

the aim of this book is to discuss how universities are acting in an entrepreneurial way by responding to educational and social challenges this will help to understand fruitful new areas of teaching research service and engagement that can occur in a university setting based on entrepreneurial thinking

provides analysis of 650 jobs based on 20 years of research using the mcclelland mcber job competence assessment jca methodology includes generic job models for entrepreneurs technical professionals salespeople service workers and corporate managers defines jca and describes in detail how to conduct jca studies suggests future directions and uses for competency research

aims to assist ilo partner organizations in promoting enterprise development among women in poverty who want to start or are already engaged in small scale business contains training modules and exercises on entrepreneurship the business environment including marketing production services finance and support explains essential business and financial terms appends a marketing mix board game for the exploration of ideas and to increase participants knowledge

entrepreneurship is of critical importance to the modern economy researchers have studied entrepreneurship for decades in recent years significant relationship between entrepreneurial competencies and firm performance has been reported in empirical studies applying the competency approach researchers have assumed that entrepreneurial competency differentiates entrepreneurs from non entrepreneurs without empirically examining if this is the case the research conducted under this thesis addresses this gap drawing upon a thorough literature review regarding the components antecedents and performance outcomes of the entrepreneurial

competency we propose the following hypothesis the entrepreneurs generally possess higher level of entrepreneurial competencies than the non entrepreneurs and the entrepreneurs and the non entrepreneurs can be discriminated based on their entrepreneurial competency level a survey is conducted among the business owners and the managers employing discriminant analysis we find empirical evidence that the business owners generally possess higher level of entrepreneurial competencies than the managers and the business owners and the managers can be discriminated based on their entrepreneurial competency level which supports our hypothesis
