this book is a socio autobiography of a young man born in a jewish town at the foot hills of the carpathian mountains in 1925 to a devout jewish family and his journey through the holocaust toward academia in the united states this new edition also follows his story into retirement this book is the revelation and personal evolution of a boy born and steeped in orthodoxy who while retaining the essence of the values into which he inducted sought at the same time to

re interpret his original values and ideals he takes this orthodox particularism and seeks to reconstruct it to become a universalist view of mankind this book is also a description of his effort to reconstruct his life which had been destroyed by hitler s effort to make the world jew free in the camps he lost most of his family upon which the foundation of his early life was built after the war finding himself alone he had to revise his plans for the future and was forced to find his way alone in another world and another way of life he seeks to overcome obstacles and rebuild his life while also finding a niche for himself in a new post holocaust world eugen schoenfeld shares with his readers the hardships he endured both in the camps and after liberation of hunger and loneliness and separation from his father living behind the iron curtain he invites his readers to share the various choices he had to make to understand the reasons for his decisions in the process of re constructing his life he explores the paths he had to follow in order to achieve his goal of understanding finding the answers to the question he asked his father on the first day in aushwitz birkenau how is possible that now in the midst of the twentieth century after all the great achievements in philosophy psychology and theology man is still inhumane this book is his search for a way through which human beings can reconstruct themselves can cease living merely as human beings and evolving into humane beings

shortlisted for the deutscher memorial prize 2017 karl polanyi s contribution to political economy and social science is immeasurable in reconstructing karl polanyi gareth dale foremost scholar and biographer of polanyi provides a sweeping survey of his contributions to the social sciences an opponent of traditional economics and a believer in economics contingency to society and culture polanyi s work has a cross disciplinary appeal finding popularity in anthropology economic history economic sociology and political science paradoxical formulations such as liberal socialist and cosmopolitan patriot are often used to describe polanyi s intellectual and political vision in exploring these paradoxes dale draws upon original writings and transcripts to reconstruct polanyi s views on a range of topics long neglected in critical literature including the history of antiquity the evolution and dynamics of stalin s russia mccarthyism and polanyi s critical dialogue with marxism accompanying the reconstruction of his work is dale s analysis of polanyi s relevance to current issues notably the clash between democracy and capitalism and the nature and trajectory of european unification this proves an indispensable critical guide to polanyian thought

behold a new thing

the reconstruction of religious thought in islam 1930 is muhammad iqbal s major philosophic work a series of profound reflections on the perennial conflict among science religion and philosophy culminating in new visions of the unity of human knowledge of the human spirit and of god iqbal s thought contributed significantly to the establishment of pakistan to the religious and political ideals of the iranian revolution and to the survival of muslim identity in

parts of the former ussr it now serves as new bridge between east and west and between islam and the other religions of the book with a new introduction by javed majeed this edition of the reconstruction opens the teachings of iqbal to the modern western reader it will be essential reading for all those interested in islamic intellectual history the renewal of islam in the modern world and political theory of islam s relationship to the west

the battle in architecture between the internationalist voices of modernism and the localized resistance which favored traditional technologies and regional precedents reflected in microcosm the violent and complex histories of twentieth century germany the chapters in this book span the years from 1902 to 1991 and interrogate the ways in which architecture constructed and reconstructed these histories with a primary focus on those voices that were opposed to the dogmas of modernism all translated into english for the first time the chapters reflect the changing eras and contours of the german nation they were written in the german empire 1871 1918 the weimar republic 1918 1933 the third reich 1933 1945 the federal republic of germany and the german democratic republic gdr which both existed from 1949 to 1990 and finally the reunified germany that came into being in 1990 when the former gdr and the reunified berlin joined the federal republic of germany the chapters in this book were originally published as a special issue of art in translation

when most of the central and east european countries are celebrating their centennial as modern states and some of them thirty years since the fall of the communist regime security challenges in the region reveal two overlapping layers the scars from old political conflicts amongst the great powers and present evolutions triggered by the ict migration europeanization or global governance the present volume offers a glimpse into the various security dilemmas central eastern and east neighbouring states have faced over the last century alors que la plupart des États de l'europe centrale et de l'est sont en train de fêter cent ans d'existence moderne et une trentaine depuis l'écroulement du communisme la nature des défis sécuritaires régionaux révèle l'existence de strates partiellement superposées cicatrices des anciens conflits politiques entre les grandes puissances et usage des tice migration européanisation ou gouvernance globale cet ouvrage revient sur les dilemmes ayant marqué les États de l'europe centrale et orientale au cours du siècle passé

winner of the 2023 southern jewish historical society book award essays from a prolific career that challenge and overturn traditional narratives of southern jewish history mark k bauman one of the foremost scholars of southern jewish history working today has spent much of his career as he puts it rewriting southern jewish history in ways that its earliest historians could not have envisioned or anticipated and doing so by specifically targeting themes and trends that might not have been readily apparent to those scholars a new vision of southern jewish history studies in institution building leadership interaction and mobility features essays collected from over a forty year career including a never before published article the

prevailing narrative in southern jewish history tends to emphasize the role of immigrant jews as merchants in small southern towns and their subsequent struggles and successes in making a place for themselves in the fabric of those communities bauman offers assessments that go far beyond these simplified frameworks and draws upon varieties of subject matter time periods locations tools and perspectives over three decades of writing and scholarship a new vision of southern jewish history contains bauman s studies of jewish urbanization acculturation and migration intra and inter group relations economics and business government civic affairs transnational diplomacy social services and gender all complicating traditional notions of southern jewish identity drawing on role theory as informed by sociology psychology demographics and the nature and dynamics of leadership bauman traverses a broad swath often urban of the southern landscape from savannah charleston and baltimore through atlanta new orleans galveston and beyond the country to europe and israel bauman s retrospective volume gives readers the opportunity to review a lifetime of work in a single publication as well as peruse newly penned introductions to his essays the book also features an additional readings section designed to update the historiography in the essays

the summaries of evidence have provided ready made challenges to previously unquestioned medical options the book provides a challenging update on the nature of scientific inquiry british journal of clinical psychology despite nearly one hundred years of research very little progress has been achieved in the understanding of schizophrenic behaviour there remains considerable uncertainty even about the fundamental features of the hypothesised illness reconstructing schizophrenia subjects the difficult concept of schizophrenia to rigorous scientific historical and sociological scrutiny they ask why a biological defect has been assumed in the absence of hard evidence and look at what can be done psychologically to alleviate schizophrenic symptoms finally they explore what new models and research strategies are required in order to understand schizophrenic behaviour the result is a book that provides a distinctive and critical perspective on modern psychiatric theories and which demonstrates the severe limitations of an exclusively medical approach to understanding madness

in the late 1980s holocaust literature emerged as a provocative but poorly defined scholarly field the essays in this volume reflect the increasingly international and pluridisciplinary nature of this scholarship and the widening of the definition of holocaust literature to include comic books fiction film and poetry as well as the more traditional diaries memoirs and journals ten contributors from four countries engage issues of authenticity evangelicalism morality representation personal experience and wish fulfillment in holocaust literature which have been the subject of controversies in the us europe and the middle east of interest to students and instructors of antisemitism national and comparative literatures theater film history literary criticism religion and holocaust studies this book also contains an extensive bibliography with references in over twenty languages which seeks to inspire further research

in an international context

on reconstruction in countries like romania czechoslovakia and poland covers the most recent political and economic developments in every country in eastern europe including german reunification each country profile provides a chronology of events for 1989 90 followed by information on the nature and extent of change privatization currency r

rave reviews for reconstructing biology it is just the sort of book i would have expected from john vandermeer who for his entire professional life has been a leading voice in trying to make people understand the true nature of the forces that are both inside and outside of human beings and the correct relationship between human beings and the rest of nature r c lewontin harvard university for over a decade now we have been inundated by massive tomes on the nature of race by psychologists and sociologists poorly trained in genetics and biology now at last a preeminent biologist explains the true nature of race differences the combination of scientific clarity political insight and historical acumen makes this one of the most important books yet published on the subject of race and racism barry mehler ferris state university given the frequency with which we meet simplistic claims today that social behaviors such as criminality alcoholism shyness homosexuality or infidelity are genetically determined reconstructing biology should be required reading for all students in the social as well as natural sciences garland e allen washington university in st louis a biologist takes a probing look at some of the most important questions facing postmodern civilization in reconstructing biology noted biologist and educator john vandermeer explores the ways in which the science of biology has been and continues to be misinterpreted and misappropriated on behalf of some of the most pernicious doctrines and policies of the past 200 years from the politics of genetics to the biology of iq reconstructing biology is must reading for anyone concerned about the role of science in the most important social and political issues of our time
