publisher description

early modern women's writing and the future of literary history demonstrates that a full accounting of early modern women's literary and creative activities is necessary to the future of literary studies writ large despite benefiting from a rich body of scholarship and diverse critical practices early modern women's writing is still treated as an optional or secondary component of renaissance literary studies as a whole in this book dodds and dowd offer a state of the field assessment of the critical and theoretical debates that have resulted in this state of affairs in order to advance specific visions for the future dodds and dowd examine how perennial questions about authorship canon and literary value have historically influenced scholarship on early modern women's writing and its place within literary studies early modern women's writing has been perceived as belated out of sync with dominant critical trends dodds and dowd show the belatedness of early modern women's writing to be a happy accident that positions women's writing as a resource for the renewal of literary history in both the classroom and in scholarship early modern women's writing shows the way forward for the field whether in the revitalization of formalist approaches to literature through an alliance with feminism or in the integration of newer critical methodologies such as premodern critical race studies this book demonstrates that a feminist literary history that places women's writing at its center is essential to the future of english renaissance literary studies there is in other words no history of english renaissance literature without women writers

literature has never looked weirder full of images colors gadgets and footnotes and violating established norms of character plot and narrative structure yet over the last 30 years critics have coined more than 20 new realisms in their attempts to describe it what makes this decidedly unorthodox literature realistic and if it is then what does realism mean anymore examining literature by dozens of writers and over a century of theory and criticism about realism the moral worlds of contemporary realism sorts through the current critical confusion to illustrate how our ideas about what is real and how best to depict it have changed dramatically especially in recent years along the way mary k holland guides the reader on a lively tour through the landscape of contemporary literary studies taking in metafiction ideology posthumanism postmodernism and poststructuralism with forays into quantum mechanics new materialism and buddhism as well to give us entirely new ways of viewing how humans use language to make sense of and to make the world
