drawing on the theories and philosophies of Deleuze and Guattari this edited collection explores the concept of rhizomatic learning and consolidates recent explorations in theory building and multidisciplinary research to identify new directions in the field knowledge transfer is no longer a fixed process rhizomatic learning posits that learning is a continuous dynamic process making connections using multiple paths without beginnings and ending in a nomadic style the chapters in this book examine these notions and how they intersect with a contemporary and future global society tracking the development of the field from poststructuralist thinking to nomadic pedagogy

this book goes beyond philosophy to examine rhizomatic learning within the real world of education it highlights innovative methods frameworks and controversies as well as creative and unique approaches to both the theory and practice of rhizomatic learning bringing together international contributors to provide new insights into pedagogy for 21st century learning this book will be of interest to academics researchers and postgraduate students in education and adjacent fields

a proven program for enhancing students thinking and comprehension abilities visible thinking is a research based approach to teaching thinking begun at harvard s project zero that develops students thinking dispositions while at the same time deepening their understanding of the topics they study rather than a set of fixed lessons visible thinking is a varied collection of practices including thinking routines small sets of questions or a short sequence of steps as well as the documentation of student thinking using this process thinking becomes visible as the students different viewpoints are expressed documented discussed and reflected upon helps direct student thinking and structure classroom discussion can be applied with students at all grade levels and in all content areas includes easy to implement classroom strategies the book also comes with a dvd of video clips featuring visible thinking in practice in different classrooms

beyond 2020 wireless communication systems will have to support more than 1 000 times the traffic volume of today s systems this extremely high traffic load is a major issue faced by 5g designers and researchers this challenge will be met by a combination of parallel techniques that will use more spectrum more flexibly realize higher spectral efficiency and densify cells novel techniques and paradigms must be developed to meet these goals the book addresses diverse key point issues of next generation wireless communications systems and identifies promising solutions the book s core is concentrated to techniques and methods belonging to what is generally called radio access network

derek wright s new directions in african fiction examines the recent work of both generations providing readers with a lively lucid introduction to today s african novel
