with rapid economic and industrial development in china india and elsewhere fluid related structural vibration and noise problems are widely encountered in many fields just as they are in the more developed parts of the world

causing increasingly grievous concerns turbulence clearly has a significant impact on many such problems on the other hand new opportunities are emerging with the advent of various new technologies such as signal processing flow visualization and diagnostics new functional materials sensors and actuators etc these have revitalized interdisciplinary research activities and it is in this context that the 2nd symposium on fluid structure sound interactions and control fssic was organized held in hong kong may 20 21 2013 and macau may 22 23 2013 the meeting brought together scientists and engineers working in all related branches from both east and west and provided them with a forum to exchange and share the latest progress ideas and advances and to chart the frontiers of fssic the proceedings of the 2nd symposium on fluid structure sound interactions and control largely focuses on advances in the theory experimental research and numerical simulations of turbulence in the contexts of flow induced vibration noise and their control this includes several practical areas for interaction such as the aerodynamics of road and space vehicles marine and civil engineering nuclear reactors and biomedical science etc one of the particular features of these proceedings is that it integrates acoustics with the study of flow induced vibration which is not a common practice but is scientifically very helpful in understanding simulating and controlling vibration this offers a broader view of the discipline from which readers will benefit greatly these proceedings are intended for academics research scientists design engineers and graduate students in engineering fluid dynamics acoustics fluid and aerodynamics vibration dynamical systems and control etc yu zhou is a professor in institute for turbulence noise vibration interaction and control at harbin institute of technology yang liu is an associate professor at the hong kong polytechnic university lixi huang associate professor works at the university of hong kong professor dewey h hedges works at the school of aerospace engineering georgia institute of technology

a bestseller for more than sixty years perrine s literature structure sound and sense 13e offers an effective introduction to literature using a rich assortment of classic modern and contemporary readings that appeal to students from a broad range of backgrounds and experiences written for students beginning a serious study of literature the text introduces the fundamental elements of fiction poetry and drama in a concise and engaging way addressing vital questions that other texts tend to ignore such as is some literature better and how can it be evaluated the thirteenth edition reflects the most recently published mla guide 8th edition 2016 and is updated with new stories poems and plays by some of the finest authors of any era important notice media content referenced within the product description or the product text may not be available in the ebook version

the standard location tool for full length plays published in collections and anthologies in england and the united

states since the beginning of the 20th century ottemiller s index to plays in collections has undergone seven previous editions the latest in 1988 covering 1900 through 1985 in this new edition denise montgomery has expanded the volume to include collections published in the entire english speaking world through 2000 and beyond this new volume lists more than 3 500 new plays and 2 000 new authors as well as birth and or death information for hundreds of authors representing the largest expansion between editions this updated volume is a valuable resource for libraries worldwide
