realistic representation of the speech of the lower classes in ancient literature is largely confined to the comic genres and petronius realism in this area is more thorough going than that of any other ancient author a vast scholarly literature has grown up around the question of how faithfully the speeches of petronius freedmen reflect characteristics of actual popular speech this literature is reviewed and evaluated a survey of the phonological morphological lexical and syntactic peculiarities in these speeches is then undertaken in which they are compared with other vulgar latin sources such as the pompeian inscriptions petronius is in fact one of our most important early sources for the study of popular latin the way in which petronius used specific varieties of non standard latin to characterize different freedmen speakers is explored petronius has subtly modulated his freedmen s speeches to reflect differing emotional states and the different attitudes of the speakers toward their social position the present study is the first comprehensive treatment of the subject undertaken in over forty years in any language and the only one in english

this work inquires into the impact of dissident sensibilities on the writings of the major neronian authors it offers a detailed and innovative analysis of essays poetry and fiction written by seneca lucan and petronius and illuminates their psychological and moral anguish the study is intended as a companion volume to vasily rudich s earlier work political dissidence under nero the price of dissimulation where he discussed the ways in which dissident sensibilities of the neronians affected their actual behaviour dissidence and literature under nero extends this analysis to show how the same sensibilities became manifest in the texts written

by the neronian authors it explores the pressures on authors under a repressive regime who strive to maintain their artistic integrity thus the argument of this book can be seen as a comparison between the predicament of a neronian dissident and the situation of the postmodern intellectual it will interest professional classicists and the wider audience concerned with the ongoing debate on the benefits and perils of rhetorical discourse
