originally published in 1986 this volume brings together papers on the organisational structure of select public enterprises from nine countries developed and developing they are set in different forms work in different sectors and have diverse experiences often on similar issues the papers are written by top executives of the respective enterprises and therefore contain an authentic presentation of the problems and processes of organisation the editor has included at the beginning an analytical review on certain fundamental aspects of organisational structure which for the purpose of this volume has been conceived in wide terms every one of these aspects is not exactly covered by every empirical paper at the end he has provided a comparative review trying to keep to a minimum repetition of material from the papers

duke ellington was one of jazz s greatest figures a composer and bandleader of unparalleled importance and influence but little attention has been given to his chief musical collaborator billy strayhorn who created hundreds of compositions and arrangements for his musical partner and without whom the sound of ellington s orchestra would have been very different now in walter van de leur s provocative new book something to live for billy strayhorn steps out from ellington s shadow and into the spotlight van de leur argues that far from being merely a follower of ellington or his alter ego strayhorn brought a radically new and visionary way of writing to the ellington orchestra making extensive use for the first time of over 3 000 autograph scores van de leur separates strayhorn from ellington establishes who wrote what and clearly distinguishes between their distinctive musical styles both strayhorn s and ellington s oeuvres writes van de leur though historically intertwined nevertheless form coherent separate musical entities especially in terms of harmonic melodic and structural design indeed something to live for allows us to see the characteristic features of strayhorn s compositions and arrangements his musical fingerprints and to analyze and evaluate his music on its own terms the book also makes clear that strayhorn s contribution to the band was much larger and more original than has been previously acknowledged based on a decade of research and offering detailed analyses of over 70 musical examples something to live for casts new light and will surely arouse intense debate on two of the most important composers in the history of

physics for degree students is written exclusively for b sc first year students for close to 10 years the text provides close to 1500 pedagogical elements spread across 24 chapters to the students while covering the entire syllabus
