first published in 2002 volume 3 of the notes on the notebooks of samuel taylor coleridge spanning from 1804 to 1819 the volume is in two parts text and notes during his adult life until his death in 1834 coleridge made entries in more than sixty notebooks neither commonplace books nor diaries but something of both they contain notes on literary theological philosophical scientific social and psychological matters plans for and fragments of works and many other items of great interest shortly after world war ii kathleen coburn formerly of victoria college in toronto rediscovered this great collection of unpublished manuscripts with the support of the coleridge estate she embarked on a career of editing and publishing these volumes and was awarded with many honours for her work including a leverhulme award 1948 a guggenheim fellowship 1953 a fellowship in the royal society of canada 1958 the order of canada 1974 and an honorary doctorate from her own university originally projected as a five volume set each volume consisting of a book of text and a book of notes

this book argues that the songs on bob dylan s john wesley harding are deeply concerned with the fractures in collective memory and politics contemporary with its composition and recording the songs are thorough investigations of the ethics of memory in america critics and curators frame this song series as a return to dylan s folk roots and as a retreat from the political specifically critics argue that dylan on this album retreats from the explicitly political into the realm of timeless universal moral concerns as if these discourses can be so separated the present book seeks to remedy these oversights and illuminate the reception of dylan s songwriting art the summer of 1967 was understood by white middle class young people as the summer of love for african americans 1967 was understood as the long hot summer of racial tension and rioting dylan s aversion to the summer of love is well documented and john wesley harding is understood by critics as yet another step by dylan away from his audience s desires this book examines what the album s provocation entails it asserts that the album is a reckoning with the tensions in american memory and history that subtend the explosive long hot summer the book deploys a method informed by poststructuralism especially the work of jacques derrida to a dismantle the notion of original and authentic forms and histories to which

one can return and explain how this ironic dismantling expresses a deeply felt ethical response to american memory and its discontents in so doing the book asks how art can respond to our chaotic and strife ridden century
