Donald M. Berwick, MD, MPP, President Emeritus and Senior Fellow, Institute for Healthcare Improvement. Best health outcomes are often the result of an extremely competent, completely connected team of caregivers working with an empowered patient who is the absolute central focus, and sometimes the team quarterback. Drs. Mosser and Begun grasp the critical importance of healthcare team members working as equals despite titles or disciplines. Of practice, this is an engaging, enlightening, entertaining must-read for clinicians currently working in the field of health care, those considering the profession, people teaching potential caregivers, and anyone interested in the future of how we can deliver best health care at lowest cost through cohesive teams. George C. Halvorson, Chairman and CEO, Kaiser Permanente. Dr. Mosser and Dr. Begun blend clinical vignettes and science in a highly readable book to help us understand the importance and diversity of health care teams. The authors' conceptual frameworks are intellectually compelling, and their vignettes capture those concepts in action. Members of every type of health care team will find this book to be a valuable resource. Read the first three chapters; you won't be able to resist the pleasure of reading the rest of the book.
