from de gaulle onwards france s strategic independence has been predicated on self sufficiency in modern weapons to

achieve and maintain the requisite defence industrial base in the context of limited domestic orders paris sought to promote the export of its arms during the cold war this underpinned but was also an expression of france s determination to resist bipolar domination france offered customers around the world an alternative to reliance on one superpower or the other and in doing so it generated the revenue to support an extensive domestic arms industry the end of the cold war ushered in fundamental changes however western defence spending shrank and the global market was turned upside down while france s arms export policy was less affected by human rights concerns than other democracies it was not immune to pressures stemming from the consolidation of europe s defence industrial base and the increased interest of the eu in regulating the arms trade this adelphi book considers how france has responded to changing political and market circumstances in the way that it promotes and controls the export of weapons it examines the rationale for considering a liberal arms export policy as essential to french independence and the institutional arrangements that underpinned this it tracks the dramatic changes in the global arms market since 1990 in terms of demand and market competition and charts the response of the french government to these changes the book underlines how the french machinery of government as a directing force behind the defence industry has been resistant to the notion of export restraint even in the case of sales to authoritarian regimes however it argues that france now faces a dilemma over whether to continue with a long successful course or to moderate its independence through greater collaboration to bolster european integration and better compete globally

La diversité des interprétations de la pensée de Platon incite à s'interroger sur le genre d'objet auquel les dialogues appartiennent Socrate qui incarne la figure du philosophe est animé par la conscience de son ignorance ressort de son

activité platon n en fait pas un porte parole mais un opérateur dialectique et invite le lecteur à se l'approprier afin d'engager avec le texte un échange interactif cette hypothèse détermine une lecture insolite droffoç dont cette étude élabore la méthode en la confrontant au texte fondateur du platonisme la république la lecture insolite coordonne les interprétations passées de ce dialogue comme autant d'étapes d'une trajectoire que le texte par des indices pousse son lecteur à parcourir page 4 of cover

l'islam constitue aujourd'hui un objet conflictuel dans le champ politique français il serait vecteur de repli sur soi ou l'objet d'instrumentalisations politiques pourtant à distance des discours globalisants présents dans l'espace public et médiatique ce livre entend démontrer que cette religion peut constituer une ressource dans la mobilisation d'acteurs que tout prédisposait à l'apathie dans un contexte où la laïcité contraint les formes d'engagement s'appuyant sur l'expérience religieuse il vise tout particulièrement à défaire les analyses qui feraient agir la communauté musulmane comme un seul et même groupe social homogène en suivant les acteurs au plus près dans différents quartiers populaires ce livre restitue les contraintes très fortes qui pèsent sur l'action collective des groupes minoritaires À rebours d'une lecture qui n'y verrait que des revendications communautaristes cet ouvrage démontre que les engagements inspirés de l'islam recherchent avant toute chose l'égalité page 4 of cover
