this clearly articulated statement offers a hopeful and workable approach to conflict that eternally beleaguering human situation john paul lederach is internationally recognized for his breakthrough thinking and action related to conflict on all levels person to person factions within communities warring nations he explores why conflict transformation is more appropriate than conflict resolution or management but he refuses to be drawn into impractical idealism conflict transformation is an idea with a deep reach its practice says lederach requires both solutions and social change it asks not simply how do we end something not desired but how do we end something destructive and build something desired how do we deal with the immediate crisis as well as the long term situation what disciplines make such thinking and practices possible this title is part of the little books of justice and peacebuilding series

this book will outline a theological transformative approach that is effective in resolving congregational conflict and has shown that in the question of how the contemporary congregation might address conflict the answers lie not only in the process james taught his audience in his chapter four of his epistle but in a deeper understanding of the kind of kingdom jesus embodied and his expectations of how its members would live with a clear sense of their own standing before god and one another it will develop a dialogue between conflict theory and theology to create a solution that helps transform conflict into positive outcomes conflict transformation is a new approach to conflict resolution that attempts to describe what ought to happen in conflict more precisely it is a step beyond conflict resolution and points toward a deep transformation in the conflicting parties stopping the issues that trigger violence and allowing peace in relationships resolution focuses on the present conflict or issue and finds the solution transformation focuses on the people involved in the conflict and their permanent relationships with each other conflict transformation occurs only when true wisdom reigns among people in congregation it agrees with vayrynen 1991 that actor transformation is critical to transform conflict into something good and beneficial to the organization however unlike vayrynen it believes that unless actor transformations occur any other transformations e g issue rule and structure will be only temporary and the conflict that had been controlled in the present will reemerge later on in the future unless the falsely wise members are replaced with truly wise ones

we all long for peace within ourselves families communities countries and throughout the world we wonder what we can do about the multitude of conflicts currently wreaking havoc across the globe and the continuous reports of violence in communities as well as within families most of the time we contemplate solutions beyond our reach and overlook a powerful tool that is at our disposal forgiveness as a genocide survivor i know something about it as the genocide unfolded in rwanda in 1994 i was devastated by what i believed to be the inevitable deaths of my loved ones the news that my parents and my seven siblings had indeed been killed was simply unbearable anger and bitterness became my daily companions likewise i continued to wonder how the hutus and tutsis in rwanda could possibly reconcile after one of the most horrendous genocides of the 20th century it was not until i came to understand the notion of forgiveness that i was able to see the light at the end of the tunnel common wisdom suggests that forgiveness comes after a perpetrator makes a genuine apology this wisdom informs us that in the aftermath of a wrongdoing the offender must acknowledge the wrong he or she has done express remorse express an apology commit to never repeating said harm and make reparations to the extent possible only then can the victim forgive and agree to never seek revenge

john paul lederach blends a special training tradition in mediation with a tradition derived from his work in development throughout he uses anecdote and pertinent experiences to demonstrate his resolution techniques preparing for peace is the most innovative and comprehensive guide available for training and working across cultures and will be of value to those involved in resolution activities through development relief and nongovernmental agencies
