for years pundits have trumpeted the earthshattering changes that big data and smart networks will soon bring to our cities but what if cities have long been built for intelligence maybe for millennia in code and clay data and dirt shannon mattern advances the provocative argument that our urban spaces have been smart and mediated for thousands of years offering powerful new ways of thinking about our cities code and clay data and dirt goes far beyond the standard historical concepts of origins development revolutions and the accomplishments of an elite few mattern shows that in their architecture laws street layouts and civic knowledge and through technologies including the telephone telegraph radio printing writing and even the human voice cities have long negotiated a rich exchange between analog and digital code and clay data and dirt ether and ore mattern s vivid prose takes readers through a historically and geographically broad range of stories scenes and locations synthesizing a new narrative for our urban spaces taking media archaeology to the city s streets code and clay data and dirt reveals new ways

to write our urban media and cultural histories

during the last three years progress at reducing undernourishment has slowed tremendously in asia and the pacific after years of gains in combatting hunger progress has stagnated in all parts of this vast region despite decades of economic growth nearly half a billion people remain undernourished children in particular continue to face the burden of malnutrition this region is home to more than half of the world s malnourished children with one child in every four below the age of five suffering from stunting this is a colossal human loss given the association between undernutrition and poor cognitive development with severe lifelong consequences for these children at the same time and almost paradoxically asia and the pacific has witnessed rapid growth in the number of overweight children and the serious consequences that entails for their future health and well being this double burden of malnutrition sees undernourished and overweight children living in the same communities and households and it can even occur within the same child efforts to fight hunger and malnutrition must go hand in hand with those to build and sustain peace and there is an urgent need to accelerate and scale up actions that strengthen resilience and adaptive capacity of people and their livelihoods to climate variability and extremes as migration from rural to urban areas continues apace particularly involving poorer families urban malnutrition is another challenge facing many countries in summary what is becoming increasingly clear is that the world cannot meet the 2030 target of zero hunger if asia and the pacific the world s most populous region is not leading the way it is a hard reality but one that must be faced with a united determination to turn things around for the first time four un agencies have come together to jointly assess the state of food security and nutrition in asia and the pacific together we hope that the findings of this report will contribute to a more informed dialogue without doubt all stakeholders must make much greater efforts to accelerate progress toward the goals of a healthy and hunger free asia and the pacific action is needed now the sense of urgency cannot be overstated
