neutrosophic statistical analysis has gained attention for incorporating the degree of indeterminacy when analyzing imprecise and interval data under uncertainty an aspect often overlooked by classical statistics fuzzy statistical analysis and interval statistics recently critical discussions have emerged regarding the use and applications of neutrosophic statistics with some questioning its usefulness and validity in this paper we present a critical assessment of the existing literature focusing on areas where misunderstandings and misinterpretations of neutrosophic statistical methods have occurred we also examine flawed comparisons made between the results of neutrosophic statistics and interval statistics furthermore substantial issues have been identified in the current simulation both in its application and in the comparison of results the objective of this paper is to highlight these key concerns and provide clarity for researchers working in this area helping them to better understand the appropriate applications of neutrosophic statistical methods

surrogacy is an arrangement often supported by a legal agreement whereby a woman agrees to delivery labour for another person or people who will become the child s parent s after birth people may seek a surrogacy arrangement when pregnancy is medically impossible when pregnancy risks are dangerous for the intended mother or when a single man or a male couple wish to have a child surrogacy is considered one of many assisted reproductive technologies in surrogacy arrangements monetary compensation may or may not be involved receiving money for the arrangement is known as commercial surrogacy

the legality and cost of surrogacy varies widely between jurisdictions sometimes resulting in problematic international or interstate surrogacy arrangements couples seeking a surrogacy arrangement in a country where it is banned sometimes travel to a jurisdiction that permits it in some countries surrogacy is legal only if money does not exchange hands

essay from the year 2014 in the subject business economics business management corporate governance grade 13 76 university of hertfordshire course managing across cultures language english abstract increasing globalisation offers a wide range of opportunities for businesses operating in an international market and managers are required more than ever before to work with individuals from different countries sparrow et al 2004 however in order to manage effectively across national borders and to prevent misunderstandings or conflicts it is imperative for international managers to understand the complex differences between countries and their implications for business against this background it is particularly worthwhile to scrutinise existing research concerned with the current challenges faced by multinational corporations mncs more closely accordingly the aim of the present essay is to critically evaluate the research paper managing talent across national borders the challenges faced by an international retail group by mehdi boussebaa and glenn morgan 2008 and to provide implications for theory and practice in cross cultural management first of all to set the stage for the article analysis a brief overview of the paper will be provided subsequently theoretical frameworks used in the article will be presented and evaluated this is followed by a critical evaluation of the appropriateness of the chosen study design and methodology for the research questions posed by the authors further the findings and conclusions of the undertaken study will be outlined and discussed and afterwards based on the critical analysis of the paper in the previous sections the implications for individuals involved in cross cultural management will be presented finally the essay will conclude that the reviewed research paper despite some flaws is an interesting piece of work that makes a contribution to the existing research on international management

especially for psychiatric trainees preparing for the critical review paper of the mrcpsych or similar examination but also for anyone interested in acquiring the ability to evaluate articles in medical journals british psychiatrist marchevisky sets out criteria within the three main values of validity importance and usefulness he discusses such aspects as probability binomial and normal distributions the critical appraisal of different study designs papers on various specific functions such as diagnosis and etiology and multivariable analysis annotation copyrighted by book news inc portland or

this book examines the following factors sponsorship of research control of the dissemination of research effects of dominant research paradigms financial interests of authors publishers and editors role of new technologies for example 2 0 it is widely

accepted among researchers and educators that the peer review process the reputation of the publisher and examination of the author s credentials are the gold standards for assessing the quality of research and information however the traditional gold standards are not sufficient and the effective evaluation of information requires the consideration of additional factors controversies about positive evaluations of new medications that appear in peer reviewed journals the financial reports on enron prior to the revelations that led to its collapse and obstacles to the publication of research that does not conform to dominant paradigms are just a few examples that indicate the need for a more sophisticated and nuanced approach to evaluating information each of the factors is discussed in a factual manner supported by many examples that illustrate not only the nature of the issues but also their complexity practical suggestions for the evaluation of information are an integral part of the text highlights frequently overlooked criteria for evaluating research challenges the assumption that the gold standards for evaluation are sufficient examines the role of new technologies in evaluating and disseminating research

one of the greatest challenges currently facing the education system is that of preparing children to live in a rapidly changing technological world the author addresses a feeling of obligation among educators to strengthen intellectual skills and abilities including the exercise of critical thought the author also offers some solutions to problems associated with critical thinking

project evaluation of the development projects undertaken in 6 rural areas of kenya in the context of the special rural development programme for the period ending december 1971 covers the project selection criteria and methodology the planning framework the principles and objectives of the srdp etc outlines some of the projects completed and includes recommendations regarding similar projects in the future map references and statistical tables

a pathbreaking critique of the thought of military studies icon carl phillip gottfried von clausewitz and his magnum opus on war that illuminates why and how that work should be viewed as much more mature coherent innovative and complete than suggested by previous accounts
