many books have been published about japanese motorcycles but none has focused exclusively on the japanese motorcycle based chopper bobber trike and quad custom bike scene until now featuring stunning photography this is a great book for japanese bike fans and fans of the custom bike scene in general

as this book explains the japanese did not suddenly become proficient in the design and development of motorcycles when they first appeared in europe at the end of the 1950s instead the japanese had been involved with motorcycles since the beginning of the 20th century true early japanese motorcycles copied western design a trend that continued for several years after wwii but soon they designed a succession of highly innovative machinery not only to the grand prix world s benefit but to the paying over the counter customer too

honda kawasaki suzuki and yamaha plus bridgestone and tohatsu have all built and sold racing motorcycles which the public could also buy and enjoy

while the history of european ompetition motorcycles has been largely dominated by italian british and german marques other builders around the continent have also played significant roles from the turn of the century to present arranged by nation this book examines more than two dozen important marques including bultaco cz elf husqvarna ktm ossa peugeot and many others a wealth of rare photography including a special color section includes candid shots of the top personalities and the bikes both at rest and at speed

contains alphabetically arranged entries that provide brief descriptions as well as longer histories of different makes of motorcycles from around the world and includes color photographs of many of the featured bikes

over the course of nearly eight decades moto guzzi has built just about every motorcycle engine configuration possible singles twins triples fours and even a v 8 still for the last 30 years the 90 degree v twin has dominated the italian company s activities on the road as well as the track
