this book explores the effects of the previously ignored factors of path dependence and product features on technology acceptance with a focus on robo advice a newly developed model introduces path dependence to technology acceptance research allowing to explain previously unaccountable effects an empirical test of the model using data from germany and the usa elicits that path dependence influences the attitudes towards and demand for robo advice a process consisting of a market survey a choice based conjoint analysis and a test in a technology acceptance model allows the structured investigation of the effects of product features on the demand for robo advice the results show that selected product features have effects on the demand for robo advice and that it is essential to establish these effects empirically

at an informal board meeting in january there was broad support for removing the current blanket prohibition on the provision of non audit related consulting services by the fund s external audit firm and replacing it with a blacklist approach subject to robust safeguards to ensure the independence of the external audit firm this paper makes specific proposals to implement such a change this would align the fund s policy on the provision of consulting services by the external audit firm with practices followed in major jurisdictions and allow the external auditor to perform certain consulting services with proper safeguards to maintain the auditor s independence the proposed safeguards include i a blacklist of prohibited services ii an independence declaration by the external audit firm iii limitations on the consulting fees that can be paid to the external audit firm iv an oversight role for the external audit committee eac and v review of consulting services provided by audit firms prior to the selection of a new external audit firm for the fund the staff sought the views of the eac which concurs with the proposal to modify the policy on the provision of consulting services by the external audit firm along with the related safeguards

accountants know they need to develop structured advisory services but the big question is how do you do this when you are still busy there are many misconceptions and myths surrounding these advisory services and richard walters book aims to explain truly client centric advisory services and how to easily develop fully structured and sustainable services that will future proof firms it s an essential guide from start to finish for accountants or consultants interested in extending or developing advisory services to their clients and prospects
