this book addresses issues related to ethics and the scholarship of teaching and learning and pays special attention to ethical concerns and experiences that have arisen from engaging in scholarship

of teaching and learning sotl work the book draws on a range of research projects theoretical frameworks and narrative experiences to provide multiple perspectives of how meaning is made of research ethics in sotl academic community and reb partnerships experiences of students as partners in sotl and ethically minded approaches to teaching learning and inquiry specifically this edited book includes ethical practices that have become increasingly expansive in an ever evolving academic environment such as navigating pandemic pedagogy and data ownership due to increased online content in addition contributions pertaining to academic community partnerships between rebs and faculty detail realistic narratives and lessons learned about how higher education can become more equitable diverse and inclusive subsequently decolonial ethics for teaching and learning in higher education as well as participatory parity exemplify the need for sotl practitioners to be responsive to the social and cultural realities of a global context in ways that address social inequities and social responsibility relational ethics by way of student perspectives on vulnerability and classroom based sotl research underscore the need for students to be taught about their own agency as a means of providing student voice within sotl work lastly this book celebrates how ethically minded approaches to teaching learning and inquiry uncover strategies and pedagogy that encourage concepts such as ethical imagination and systems and design thinking practices

research ethics for counsellors nurses social workers is designed to help you make the best start in your research career with ethical implications and considerations arising at each stage of the research process engaging with the wide range of issues and ideas can often prove a challenge dee danchev and alastair ross will help you overcome this challenge and become confident skilled researchers by providing you with an in depth explanation of the theoretical base for a range of ethical demands and approaches equipping you with the tools to make the right decisions for your project key research ethics findings so students can apply the latest thinking to your research practice short case examples and checklists to help you apply theory to practice and reflect on what you have learned further reading and important resources to support your continued learning whether you are an experienced researcher or coming to research for the first time this highly practical step by step guide is a must for your bookshelf dee danchev is a counselling psychologist and pastoral advisor at nuffield college oxford alistair ross is director of psychodynamic studies and dean of kellogg college oxford

conducting research to high ethical standards is of great importance to the student and the university having an ethics protocol is the way of ensuring such standards can be met researching with the use of an approved ethics protocol also affords protection to the student many research

degree candidates need advice to help complete an application for the approval of their ethics protocol this book shows how to do this in a practical and effective way the book provides background on the issue of research ethics to help students and faculty have a greater understanding of the motivations behind the requirements to write an application to the ethics committee for the approval of an ethics protocol the process of ethics approval and the function of the ethics committee are addressed along with how to cope with amendments to an ethics protocol the book draws on the work of the authors who have had direct experience with ethics committees and helping students comply with the requirements back cover

for decades now researchers in the social sciences and humanities have been expressing a deep dissatisfaction with the process of research ethics review in academia continuing the ongoing critique of ethics review begun in will c van den hoonaard s walking the tightrope and the seduction of ethics the ethics rupture offers both an account of the system s failings and a series of proposals on how to ensure that social research is ethical rather than merely compliant with institutional requirements containing twenty five essays written by leading experts from around the world in various disciplines the ethics rupture is a landmark study of the problems caused by our current research ethics system and the ways in which scholars are seeking solutions

this timely volume brings together well established scholars and emerging voices to explore research methods and ethics in neurodiversity studies it explores the epistemic injustice that currently surrounds much knowledge production around neurodivergence and offers concrete examples of creative participatory and collaborative research practice in the field the editors have assembled chapters combining reflexive theoretical and practical contributions together they address current debates surrounding participatory methods and neurodiversity studies and are unique in giving voice to mainly neurodivergent researchers and contributors across autism adhd acquired brain injury and multiple neurodivergence the first of its kind this much needed volume contains essential reading for all those learning and teaching in the field of neurodiversity it further represents a valuable resource for students and academics at all levels participatory or creative researchers research commissioners and research evidence users across the social sciences

it s important that research with indigenous peoples is ethically and methodologically relevant this volume looks at challenges involved in this research and offers best practice guidelines to research communities exploring how adherence to ethical research principles acknowledges and maintains the integrity of indigenous people and knowledge

this accessible text supports health practitioners undertaking qualitative research to inform clinical

practice guiding readers through the decision making process from planning and proposing through data collection to dissemination and impact qualitative research makes an important contribution to the health evidence base including improving service provision practitioner communication and patient safety as well as informing policies generating important knowledge about health and providing populations with a voice in the health context balancing the need for practitioners to operate in an evidence informed way the increasing role of a research culture in the health service and the everyday clinical demands faced in practice this book includes strategies for managing the reality of undertaking qualitative research while working in clinical practice and includes a wide range of bite size chapters on topics such as quality improvement evidence based practice and practice based evidence managing dual roles planning a project working with stakeholders ethics data collection methods conducting digital research recruitment and sampling data management analytical approaches thematic approaches research with vulnerable groups dissemination translating research into practice this book is a practical resource for clinical researchers designed to support the application of learning each chapter opens with learning objectives and ends with a reflection on the chapter integrating case examples and highlighting core issues practitioner experience boxes and reflective activities bring an invaluable real world perspective to each chapter qualitative health research is the ideal text for all healthcare practitioners and trainees new to qualitative research including those from medicine nursing midwifery psychology allied health and public health

many qualitative researchers who work in the area of health and illness have become familiar with the united kingdoms national research ethics service the body that provides ethical approval for research that takes place within the national health service given that the national health service delivers the vast majority of health care in the united kingdom securing national research ethics service approval is a necessity for any social scientist who wishes to conduct an empirical examination of medicine health and illness in this country doing research within the national health service context is both intellectually enriching and often practically necessary for the field of study however the process for gaining the required ethical approval can be difficult and it is not without obstacles of which even a seasoned researcher should be aware this case study presents my own experience of negotiating the requirements of a national research ethics service research ethics committee undertaken to conduct my phd fieldwork i will start with a brief outline of my research before i detail the challenges that i faced to gain the ethical approval required from the research ethics committee and the research and development application process which is part and parcel of research ethics committee approval i will end the discussion by framing my experience within the current debate on the advantages and disadvantages that the biomedical research ethics

model presents to social science research in medicine
