the fourth edition of this dynamic and popular text provides a comprehensive introduction to contemporary politics in the middle east fully revised and updated throughout it features a new chapter on the arab spring and its aftermath plus a wide range of vibrant case studies data questions for class discussion and suggestions for further reading purposefully employing a clear thematic structure the book begins by introducing key concepts and contentious debates before outlining the impact of colonialism and the rise and relevance of arab nationalism in the region major political issues affecting the middle east are then explored in full these include political economy conflict political islam gender the regional democracy deficit and ethnicity and minorities the book also examines the role of key foreign actors such as the usa russia and the eu and concludes with an in depth analysis of the arab uprisings and their impact in an era of uncertainty

a 2000 year history of a region stretching from libya to central asia concludes with the effects of the gulf war

is the idea of the middle east simply a geopolitical construct conceived by the west to serve particular strategic and economic interests or can we identify geographical historical cultural and political patterns to indicate some sort of internal coherence to this label while the term has achieved common usage no one studying the region has yet addressed whether this conceptualization has real meaning and then articulated what and where the middle east is or is not this volume fills the void offering a diverse set of voices from political and cultural historians to social scientists geographers and political economists to debate the possible manifestations and meanings of the middle east at a time when geopolitical forces social currents and environmental concerns have brought attention to the region this volume examines the very definition and geographic and cultural boundaries of the middle east in an unprecedented way

presents an introduction to the middle east and discusses issues of economic political and cultural significance including the arab israeli conflict u s policy the persian gulf oil and islam with profiles of twelve middle eastern countries chronology s of events in the region from 1900 to 2004

the middle east can be bewildering which is why we need to connect the dots that pull together the political economic diplomatic military cultural and religious pieces of the puzzle professor steven carol slashes through the confusion with a topical approach focusing on key issues such as the geographic features of the middle east demographics of the region the influence of islam political processes shifting alliances war in the region and the need for security he also takes a careful look at perpetual negotiations attempts to secure peace and the role that the media play in how we view the region his goal to clarify the confusing nature of middle east affairs and to combat the mistaken beliefs misrepresentations and outright fabrications about the region in a bid to reclaim the truth he shares basic principles relying on factual supporting evidence to prove their validity seventy eight maps and numerous tables make understanding complex topics easier whether you re a student educator bureaucrat or politician you ll find insights based on facts in understanding the volatile and dangerous middle east

how can the current civil wars in the middle east be resolved this volume brings together academics experts and practitioners to explore this question the book covers the history of civil wars in the region during the 20th century and then examines the specific causes drivers and dynamics of the ongoing civil wars in syria yemen libya afghanistan and iraq updated for a second edition the book argues that while these are very different cases of civil war there are patterns that are important to point out at the outset first while each of the conflicts appears to be a relatively recent phenomenon each has a long historical tail second each of the civil wars had deep and complex domestic drivers and dynamics over issues of governance political

identity and resources at the same time all of the conflicts have had deep regional and international components finally all of these civil wars have been affected by the presence or entrance of armed transnational non state actors which have had far greater involvement in the middle eastern civil wars compared to other regions the book concludes that these conflicts will require a mixture of local regional and international interventions to bring them to an end but that none of the conflicts are likely to end cleanly through either a negotiated settlement or a clear victory by one party or the other despite this pessimistic overall assessment the book emphasizes that policymakers should use knowledge of civil wars in the middle east to develop and pursue specific national regional and global policies these should be built around mitigating the worst effects of the conflicts and towards ultimate resolution

engagingly written drawing from the author s own research and other studies and stocked with maps and photographs original documents and an abundance of supplementary materials the modern middle east a history will provide both novices and specialists with fresh insights into the events that have shaped history and the debates about them that have absorbed historians
