a magisterial history of the jews in nazi germany and the regime s policies towards them in the years prior to world war ii and the holocaust written by arguably the world s leading scholar on the subject himself a survivor friedlander has been a leading figure in holocaust studies for decades and this book represents a definitive summing up of his research and that of hundreds of other historians nazi germany and the jews the years of persecution is perhaps the richest examination of the subject yet written and crucially one that never loses sight of the experiences of individuals in its discussion of nazi politics and the terrible statistics and technological and administrative sophistication of the final solution

nazi germany and the jews 1933 1945 is an abridged edition of saul friedländer s definitive pulitzer prize winning two volume history of the holocaust nazi germany and the jews the years of persecution 1933 1939 and the years of extermination nazi germany and the jews 1939 1945 the book s first part dealing with the national socialist campaign of oppression restores the voices of jews who were engulfed in an increasingly horrifying reality following the nazi accession to power friedländer also provides the accounts of the persecutors themselves and perhaps most telling of all the testimonies of ordinary german citizens who in general stood silent and unmoved by the increasing waves of segregation humiliation impoverishment and violence the second part covers the german extermination policies that resulted in the murder of six million european jews an official program that depended upon the cooperation of local authorities and police departments the passivity of the populations and the willingness of the victims to submit in desperate hope of surviving long enough to escape the german vise a monumental multifaceted study now contained in a single volume saul friedländer s nazi germany and the jews 1933 1945 is an essential study of a dark and complex history

executive editor wolf gruner english language edition prepared by caroline pearce and dorothy mas this volume documents the persecution of the jews in the german reich between 1933 and 1937 the documents illustrate the ways in which the jews in germany were thrown out of their jobs and excluded from public institutions and public life and how the nuremberg laws reduced the status of german jews to second class citizens and set out to sever the ties between jewish and non jewish germans it documents the political calculations and strategy of the nazi ruling elite in relation to antisemitic measures and the local outbreaks of violence and terror against the jewish population it also illustrates the widespread indifference of non jewish germans in 1935 the berlin rabbi joachim prinz described how the circumstances for the jewish population had changed the jew s lot is to be neighbourless we would not find it all so painful if we did not have the feeling that we once did have neighbours learn more about the pmj on pmjdocuments.org

going beyond the fanatical anti semitism of hitler and his chiefs schleunes analyzes the internal structure of the nazi regime the role of its bureaucracies and the rivalries between competing power groups to trace the early stages of discrimination against jews and their exclusion from public life that led ultimately to their deaths p vii

presented for the first time in english the huge archive of secret nazi reports reveals what life was like for german jews and the extent to which the german population supported their social exclusion and the measures that led to their annihilation

this book is first of its kind to deal with the interwar jewish emigration from germany in a comparative framework and follows the entire migration process from the point of view of the emigrants it combines the usage of social and economic measures with the individual stories of the immigrants thereby revealing the complex connection between the socio economic profile varieties and the decisions regarding emigration if when and where to the encounter between the various immigrant refugee groups and the different host societies in different times produced diverse stories of presence function absorption and self awareness in the three major overseas destinations palestine the usa and great britain despite the ostensibly common german jewish heritage thus german jewish immigrants created a new and nuanced fabric of the german jewish diaspora in its main three centers and shaped distinct identifications and legacies in israel britain and the united states

this source edition on the persecution and murder of the european jews by nazi germany presents in 16 volumes a thematically comprehensive selection of documents on the holocaust volume 1 addresses the persecution of the german jews between 1933 and 1937 revealing how the disenfranchisement and social isolation of the jews was driven forward and which role terror state calculations and the indifference of very many germans played

german jews faced harsh dilemmas in their responses to nazi persecution partly a result of nazi cruelty and brutality but also a result of an understanding of their history and rightful place in germany this volume addresses the impact of the anti jewish policies of hitler s regime on jewish family life jewish women and the existence of jewish organizations and institutions and considers some of the jewish responses to nazi anti semitism and persecution this volume offers scholars students and interested readers a highly accessible but focused introduction to jewish life under national socialism the often painful dilemmas that it produced and the varied jewish responses to those dilemmas

these essays written in the course of half a century of research and thought on german and jewish history deal with the uniqueness of a phenomenon in its historical and philosophical context applying the classical empirical tools to this unprecedented historical chapter kulka strives to incorporate it into the continuum of jewish and universal history at the same time he endeavors to fathom the meaning of the ideologically motivated mass murder and incalculable suffering the author presents a multifaceted integrative history encompassing the german society its attitudes toward the jews and toward the anti jewish policy of the nazi regime as well as the jewish society its self perception and its leadership

the purpose of this text is to try to understand how germany could attempt to exterminate its jewish population during the nazi period through individual stories beginning with moises mendelsohn in the 1780s and ending with hannah arendt it traces the history of assimilation and the jewish contribution to german public and cultural life

the suicides of hitler goebbels bormann himmler and later goering at the end of world war ii were only the most prominent in a suicide epidemic that has no historical parallel and that can tell us much about the third reich s peculiar self destructiveness and the depths of nazi fanaticism looking at the suicides of both nazis and ordinary people in germany from the end of world war i until the end of world war ii christian goeschel shows how suicides among different population groups including supporters opponents and victims of the regime responded to the social cultural economic and political context of the time richly grounded in gripping and previously unpublished source material suicide in nazi germany offers a new perspective on the central social and political crises of the era from revolution economic collapse and the rise of the nazis to germany s total defeat in 1945

german jews and migration to the united states 1933 1945 is a collection of first person accounts many previously unpublished that document the flight and exile of german jews from nazi germany to the usa the authors of the letters and memoirs included in this collection share two important characteristics they all had close ties to munich the bavarian capital and they all emigrated to the usa though sometimes via detours and or after stays of varying lengths in other places of refuge selected to represent a wide range of exile experiences these testimonies are carefully edited extensively annotated and accompanied by biographical introductions to make them accessible to readers especially those who are new to the subject these autobiographical sources reveal the often traumatic experiences and consequences of forced migration displacement resettlement and new beginnings in addition this book demonstrates that migration is not only a process

by which groups and individuals relocate from one place to another but also a dynamic of transmigration affected by migrant networks and the complex relationships between national policies and the agency of migrants

eyewitness testimonies of jews and non jews who survived the holocaust explore the behavior of german citizens toward the jews during the third reich

the fullest account to date of german jews struggle for economic survival under the third reich

a great historian crowns a lifetime of thought and research by answering a question that has haunted us for more than 50 years how did one of the most industrially and culturally advanced nations in the world embark on and continue along the path leading to one of the most enormous criminal enterprises in history the extermination of europe s jews giving considerable emphasis to a wealth of new archival findings saul friedlander restores the voices of jews who after the 1933 nazi accession to power were engulfed in an increasingly horrifying reality we hear from the persecutors themselves the leaders of the nazi party the members of the protestant and catholic hierarchies the university elites and the heads of the business community most telling of all perhaps are the testimonies of ordinary german citizens who in the main acquiesced to increasing waves of dismissals segregation humiliation impoverishment expulsion and violence

argues that not all of germany was enthusiastic about the nazi regime including its policies against the jews and that it is wrong to make improper generalizations on the germans as a guilty nation brings numerous examples of germans who helped jews in 1933 45 and rescued them when the mass murders began if even expressing compassion to jews or protesting against nazi politics in 1933 38 could be punished so rescue of jews during the war could inflict capital punishment on the rescuer dwells specifically on the attitudes and activities of the churches vis à vis the nazi persecution of jews the catholic and various protestant churches as institutions failed to do their most to help jews or jewish converts to christianity but some clergymen of various denominations from rank and file to higher up in the hierarchy rescued jews and jewish converts and some paid for it with their lives although catholics did more for victims of nazi racial persecution than protestants as a whole the failure of the catholic church to withstand the nazi policies presents a more grievous picture given its international character and greater independence of the nazi state

most books on nazi germany focus on the war years much less is known about the preceding years although these give important clues with regard to the events after november 1938 which culminated in the holocaust this book is based on

eyewitness accounts chosen from the many memoirs that harvard university received in 1940 after it had sent out a call to german jewish refugees to describe their experiences before and after 1933 these invaluable documents became part of the harvard archives where the editors of this volume discovered them fifty years later these memoirs written so soon after the emigration when the impressions were still vivid movingly describe the gradual deterioration of the situation of the jews the daily humiliations and insults they had to suffer and their desperate attempts to leave germany an informative introduction puts these accounts into a wider framework
