fichte s the way toward the blessed life posits that true life is inseparable from divine love and pure thought and that blessedness is  
achieved only by turning away from the perishable world toward the eternal unity of god fichte draws a fundamental distinction between  
the true life which is blessed eternal and grounded in the love of god and the semblance of life which is scattered transient and bound to  
the world he asserts life is love and therefore life and blessedness in and for itself are one and the same this true life is characterized by  
its unity with divine being the true life loves the one unchangeable and eternal the semblance of life attempts to love the perishable in its

perishability thus the apparent life is not truly alive but is a mixture of being and non being a state of endless longing and inherent unrest central to fichte s doctrine is the role of thought as the medium through which the divine is grasped and the blessed life is realized he declares the element the aether the substantial form of the true life is thought this is because only through pure thinking can one apprehend the eternal and unchangeable the eternal can be grasped merely and solely through thought the true life and its blessedness consists in thought fichte sharply contrasts this with sensory perception or vague feeling which belong to the realm of semblance and cannot provide lasting certainty or union with the divine the practical instruction fichte offers is not a call to create divinity within oneself but to remove the obstacles that obscure it he summarizes the path succinctly it is by no means required of the human to create the eternal for himself the human should only let go the perishable and null whereupon immediately the eternal with all its blessedness will come to him this requires an inward turn a withdrawal of our love from the manifold to the one which demands effort and seriousness he acknowledges the difficulty of this task in a skeptical age but insists that this recentering of the mind is the sole condition for receiving a blessedness that is always already present and waiting to be recognized this modern professional translation provides scholarly depth and supplementary materials that contextualize fichte s philosophy within his social and intellectual framework this critical reader s edition includes an extensive afterword that traces fichte s personal relationships with hegel and kant fichte was close with kant who helped him publish his first book on philosophy fichte considered himself an heir to kant s philosophy however kant ended their friendship by calling his system completely indefensible and claiming that fichte had transformed critical philosophy into something he no longer recognized a form of idealism that eliminated the thing in itself entirely and made everything dependent on the activity of the ego fichte and hegel knew each other at the university of jena where hegel was influenced by fichte s idealist philosophy however he later developed sharp criticisms of fichte s system hegel eventually saw fichte s philosophy as incomplete and overly subjective a view he expressed in works such as the phenomenology of spirit fichte influenced schopenhauer s concept of the irrational will freud s ego and sartre s existentialism in recent decades Žižek s praise of fichte s subjective negativity as highlighting the void of the real has revitalized interest in fichte this edition contains a comprehensive timeline that connects the major events of fichte s life with world events it also includes a glossary of critical philosophical and romantic idealist terminology and a detailed index that provides an authoritative guide to his complete writings bringing to life this critical german idealist philosopher and his relevance in today s world

philosophising the dialogos way towards wisdom in education proposes the innovative and holistic dialogos approach to practical philosophy as a way of facilitating wisdom oriented pedagogy the book encourages individual and collective development through dialectical interplays between personal life philosophical concepts and subject matter based on two decades of the author s reflective pedagogical practice research this book develops a philosophy of dialogical relationships it analyses approaches to philosophical

practice and suggests facilitation moves and philosophical exercises that can be adapted across educational levels school subjects and higher education disciplines chapters provide examples of transformative philosophical group dialogues and suggest pathways towards multi perspective thinking mutual understanding and wisdom in culturally diverse contexts philosophising the dialogos way towards wisdom in education can be used as a holistic approach to democracy education peace education education for sustainable living and wellbeing the book will be of great interest to academics researchers and students in the fields of teacher education philosophy of education and higher education it will also appeal to practising professionals such as teachers and teacher educators in secondary and higher education
