the wiley blackwell encyclopedia of social theory presents a comprehensive interdisciplinary

compendium of original entries focusing on the origins evolution and global development of contemporary social theory presents a comprehensive interdisciplinary overview and analysis of all aspects of social theory features more than 850 in depth original entries contributed by international experts includes all major theories theorists schools of thought disciplines debates doctrines developments epistemologies and methodologies relating to the development of modern social theory brings in concepts from contemporary cultural studies feminism post secularism and postmodernism explores controversial contemporary debates relating to the clash of civilization environmentalism post colonialism post humanism cyborgs and the life extension project

the encyclopedia of social theory includes over 280 entries a master bibliography biographical coverage of major theorists features extensive cross referencing to provide a comprehensive reference tool for anyone with an interest in social theory

emphasizes extensive coverage of the major social history topics and methods each entry is followed by one or more references most emphasize the latest and or the most comprehensive work

this encyclopedia now available in paperback is the definitive resource for all students teachers and researchers of social psychology eager to know more about a particular phenomenon concept or theory each key topic is addressed by internationally recognized authorities making the encyclopedia both comprehensive and authoritative

from terrorism to social inequality and from health care to environmental issues social problems affect us all the encyclopedia will offer an interdisciplinary perspective into these and many other social problems that are a continuing concern in our lives whether we confront them on a personal local regional national or global level

available in paperback for the first time this milestone work offers an in depth treatment of all aspects of the discipline and practice of social policy globally supported by a distinguished international advisory board the editors have compiled almost 900 000 words across 734 entries written by 284 leading specialists to provide authoritative coverage of concepts policy actors welfare institutions and services along a series of national regional and transnational dimensions also included are biographical entries on major policy makers and shapers the editors have particularly striven to provide strong coverage of differing geographical and cultural traditions so that the variety of social policy as both an academic discipline and a domain of governance is

reflected contributors draw in and make the necessary connections with social policy and associated disciplines to provide a rich picture of this vast and highly diverse field. Comprehensive and authoritative, the encyclopedia has sought to open up rather than to foreclose the numerous areas in which there is ongoing research, debate, and sometimes serious disagreement and divergence in theory and practice. To this end, entries attempt to introduce a core or common ground of understanding before moving on to a wider discussion of debates regarding different conceptual and geographical approaches. The whole is integrated by cross referencing, and each entry includes a bibliography for further reading. There is a full index. The international encyclopedia of social policy provides the most substantial mapping of the international study and practice of social policy to date and will stand as a vital storehouse of knowledge for many years to come.

Providing a guide to the ideas, arguments, and history of the discipline, this volume discusses human social and cultural life in all its diversity. Difference, theory, ethnography, and history are combined in over 230 entries on topics

from terrorism to social inequality and from health care to environmental issues. Social problems affect us all; the encyclopedia will offer an interdisciplinary perspective into these and many other social problems that are a continuing concern in our lives. Whether we confront them on a personal, local, regional, national, or global level, the goal of the encyclopedia of social problems is to provide a premier reference tool for students, scholars, and professionals with a wide range of specialties. Covering all of the major theories, approaches, and contemporary issues in social problems and their interconnectedness, the encyclopedia will also provide insight into how social conditions get defined as social problems and the ways different people and organizations view and try to solve them. The encyclopedia will be organized in an A to Z format with cross referencing of entries around a series of broad themes. Contributors will come from many disciplines, including economics, geography, political science, psychology, sociology, and women's studies.

Provides entries for terms, phrases, people, and other aspects of the social sciences and includes quotations from individuals in various fields.

Fully revised and updated, the second edition of the international encyclopedia of the social and behavioral sciences, twenty-five volume set, first published in 2001, offers a source of social and behavioral sciences reference material that is broader and deeper than any other available in both print and online editions. It comprises over 3,900 articles commissioned by 71 section

editors and includes 90 000 bibliographic references as well as comprehensive name and subject indexes provides authoritative foundational interdisciplinary knowledge across the wide range of behavioral and social sciences fields discusses history current trends and future directions topics are cross referenced with related topics and each article highlights further reading
