offering readers an accessible account of the ideas and concepts constituting geography what is geography demonstrates why these themes such as the environment and geopolitics are of fundamental importance

foucault continues on the theme of his 1978 course by focusing on the study of liberal and neo liberal forms of government and concentrating in particular on two forms of neo liberalism german post war liberalism and the liberalism of the chicago school

we once thought of cyberspace as a borderless world as the internet has become increasingly platformized with a small number of technology giants that dominate the global digital economy concerns about information monopolies hateful online content and the impact on media content creators and creative industries have become more marked consequently governments politicians and civil society are questioning how digital platforms can or should be regulated in this up to the minute study terry flew engages with important questions surrounding platform regulation starting from the premise that governance is an inherent feature of digital platforms he argues that the challenge is to develop the best frameworks for balancing external regulatory oversight with the internal governance practices of platform companies the intersection of media policy information policy and economic policy is an important element of policy frameworks as national authorities increasingly seek to engage with the power of global digital platforms lively and accessible regulating platforms is a go to text for students and scholars of media and communication

this volume presents the final results of the challenge research project the changing landscape of european liberty and security a five year project funded by the sixth framework programme of dg research of the european commission the book critically

appraises the liberties of citizens and others within the eu and the different ways in which they are affected by the proliferation of discourses practices and norms of insecurity enacted in the name of collective and individual safety it analyses from an interdisciplinary perspective the impacts of new techniques of surveillance and control on the liberty and security of the citizen the book studies illiberal practices of liberal regimes in the field of security and the relationship between the internal and external effects of these practices in an increasingly interconnected world as well as the effects in relation to the place of the eu in world politics
