with rich photography and insightful commentary this thai architecture and interior design book showcases some of the finest modern masterpieces in southeast asia a tremendous body of sophisticated and sensitively designed architectural work has been produced in thailand in the first decade of the 21st century the 25 houses in the modern thai house

illustrate the radical new ideas coming from a dynamic younger generation of architects who are producing work comparable with and sometimes even surpassing the very best architecture in the world most of these architects were trained in the u s or u k and reflect not only american and european sensibilities but also affinities with their contemporaries in asia including japan china singapore and bali all hotbeds for innovation in modern design the houses in this book are readily accessible from bangkok phuket and Chiang Mai they reflect a wide variety of concerns and solutions such as sustainability responses to climate strategies for cooling with minimal electricity openness versus security in a large metropolis such as Bangkok cultural sensitivity and responsiveness as evidenced in a three generation house built for a society in which the extended family is still prevalent and cultural memory as in the use of elements such as pilings verandahs and steeply pitched roofs with large overhangs that echo traditional Thai designs nurtured by an increasingly knowledgeable and wealthy clientele modern architecture in Thailand is emerging with a variety of innovative architectural expressions

an essential book on modern architecture one hundred of the most significant houses of the past hundred years from the first stirrings of modernity in the early twentieth century to the present the house has served as a test bed of design experimentation the place where architects have sought to create new forms and to offer new domestic lifestyles alvar Aalto Buckminster Fuller Rudolph Schindler Frank Lloyd Wright Frank Gehry Eileen Gray Charles and Ray Eames Charles Gwathmey Carlo Scarpa Herzog & de Meuron most great architects of the past hundred years have begun or catalyzed their careers with an iconic house the introduction looks at the historical and social motivations behind epoch making residential architecture showing in sidebars twenty of the most important early examples then eighty houses sixty of which have been specially photographed are presented

chronologically the text describes the all important relationship between architecture and client the physical context in which the house is set and the pivotal role the house played in the development of the architect s career and architecture in general concise architect biographies and a list of key buildings accompany each house while photographs and easy to read plans bring the words to life

the way a man thinks about his day to day living and the needs of his household reveals a great deal about his ambitions his idea of himself and his role in the community and his house or castle offers many clues to his habits as well as those of the members of his household this intriguing book explores the evolution of country house plans throughout britain and ireland from medieval times to the eighteenth century with photographs and detailed architectural plans of each house under discussion the book presents a whole range of new insights into how these homes were designed and what their varied designs tell us about the lives of their residents starting with fortified medieval tower houses the book traces patterns that developed and sometimes repeated in country house design over the centuries it discusses who slept in the bedchambers where food was prepared how rooms were arranged for official and private activities what towers signified and more groundbreaking in its depth the volume offers a rare tour of country houses for scholar and general reader alike

at any time projects in the nhdkmp office might range from a school addition to a high rise tower to an urban plan but always include a single family house house design represents the historical and conceptual foundation of the firm while nhdkmp has expanded its practice the house design has embedded itself in other design typologies house construction is the testing ground for ideas in scale use of materials spatial manipulation detail and expression of forms and these ideas inform the firm s other work while nhdkmp

s houses suggest a consistent modernist sensibility attention to the client site and construction results in a variety of solutions over the past several years the firm has compiled a logbook of houses loosely categorized according to design approach this monograph is a more permanent version of that logbook the selection of houses and some related projects are taken from almost four decades of the partnership s designs the firm s broad range of building types includes residences multiple family dwellings and high rise housing k 12 schools and university buildings include the latin school of chicago francis w parker school the university of chicago laboratory schools and projects at northwestern the university of chicago and washington university public civic and religious buildings include the spurlock museum the oak park public library and several convents chicago s harpo studios and greyhound bus terminal are among the commercial buildings completed since its founding in 1966 the firm has won more than 20 distinguished building awards from the chicago chapter of the american institute of architects and the national aia some 50 awards from other organizations and magazines have also been received the firm s work has been published nationally and internationally stanley tiggerman received both his architectural degrees from yale university in 1960 and 1961 he has designed numerous buildings and installations throughout the united states bangladesh canada great britain italy japan portugal spain west germany yugoslavia and puerto rico and given over 930 lectures throughout the world he has been a visiting chaired professor at numerous universities and he was the resident architect at the american academy in rome in 1980 he has served on advisory committees of the yale and princeton schools of architecture and the chicago art institute s department of architecture and was director of the school of architecture at the university of illinois at chicago for eight years in association with eva maddox he is co founder and director of archeworks a socially oriented design laboratory and school established in 1994 book
