as our aging population grows ever larger it is increasingly important to understand how adults age and what we can do to provide up to date care to

ensure their well being as an integral part of society leslie morgan and suzanne kunkel understand that this phenomenon is about much more than just the physical or biological aspects of growing older and have put together a comprehensive text on the impact of society and sociology on the aging process use this text to explore the diversity of the aging population and dispel the major stereotypes surrounding the elderly learn about aging through all the layers of social context from family life to politics and economics and through this approach come to see how aging is more than just an individual process it is a process that effects the direction of our society as a whole for the student sites of interest and key terms defined at the end of each chapter real life stories and essays on love sex music medicine and crime for the professor assignment ready reading in a one chapter a week format questions for discussion and review at each chapter end applying theory sections place the lesson of each chapter in a clear real world setting instructor s guide now available an instructor s manual for this textbook is available for those professors who have adopted aging society and the life course third edition and can verify a bookstore order of 7 or more copies please email our marketing department at marketing.springerpub.com if you have adopted this text as you will need a password to download the guide please provide the name and telephone number of the bookstore that ordered the textbooks a print version of the instructor s manual is also availabl

this new edition of staying alive provides readers with a fresh perspective on health health care and illness in canada and abroad grounded in a human rights approach to health this edited collection includes chapters on the social construction of illness and disability social determinants of health and current critical issues in the field the third edition has been thoroughly updated and includes recent national and international developments in health care with current world statistics and an emphasis on austerity related changes and their effects on health and health care systems it includes chapters on pharmaceutical policy social class women s health and the impact of economic forces such as globalization and privatization in health care

health research education and provision have become increasingly interdisciplinary over the last few years leading health professionals to broaden their knowledge beyond technical aspects of care practitioners now need a clear understanding of how society can affect health and an appreciation of how societal structures can drive healthcare practices in a clear systematic and accessible style this timely text looks at the social context of health and healthcare by analysing a wide range of classic and contemporary theories identifying the relevance of each theory to health showing how theory has been used in research outlining the impact of theory on health and health provision specifically written for health professionals and those engaged in health studies research this book will help students and practitioners alike understand the sociology of health and illness and enable them to critically assess health issues

policies and practices

this book argues that while notions of trauma in mental health hold promise for the advancement of women's rights the mainstreaming of trauma treatments and therapies has had mixed implications sometimes replacing genuine social change efforts with new forms of female oppression by psychiatry it contends that trauma interventions often represent a business as usual approach within psychiatry with women being expected to comply with rigid treatment protocols accepting the advice given by trauma experts that they are mentally unstable and that they must learn to manage the effects of violence in the absence of any real changes to their circumstances or resources a critique of trauma treatment in its current form trauma women's mental health and social justice recommends practical steps towards a socio political perspective on trauma which passionately re engages with feminist values and activist principles

current challenges to the legitimacy of expert knowledge has caused professional control over knowledge autonomy at work orientation toward public service and social status to have declined in this collection scholars examine the nature of these changes and how they have altered the experience of professional workers

an intelligent and informed account of medical sociology simon williams has produced an original and comprehensive sociological statement of the centrality of the body to an understanding of medicine health and illness his scope is impressive it will shape future teaching and research in the field of health and illness bryan s turner professor of sociology university of cambridge this is a clear well written account of medicine health and the body taking recent debates on the body and society as its point of departure the book critically reexamines a series of embodied issues and emotional agendas in health and illness included here are cutting edge discussions and debates concerning the medicalized body health inequalities childhood and ageing the dilemmas of high tech medicine chronic illness and disability caring and bio ethics sleep death and dying the body in late postmodernity written in an accessible engaging style with many original and innovative insights the book will appeal to undergraduate and postgraduate students alike and to researchers and lecturers with an interest in the embodied agendas of health and medicine in the new millennium

ideally the public fund behind this insurance would be derived from a progressive income tax book jacket

the sociology of health and illness critical perspectives is an essential resource for anyone interested in health and health care the new ninth edition tackles some of the most timely health issues of our day with coverage of eating disorders the effects of inequality on health how race class and gender affect health outcomes the health politics of asthma and more further new sections explore the effects of

health care reform the pharmaceutical industry and the internet on health bringing together a wide range of selections from authors like atul gawande paul farmer and irving zola the sociology of health and illness continues to provide students with the most balanced and comprehensive analysis of health care today

this reader provides both fascinating comparative ethnographic detail and a theoretical framework for organizing and interpreting information about health while there are many health related fields represented in this book its core discipline is medical anthropology and its main focus is the comparative approach cross cultural comparison gives anthropological analysis breadth while the evolutionary time scale gives it depth these two features have always been fundamental to anthropology and continue to distinguish it among the social sciences a third feature is the in depth knowledge of culture produced by anthropological methods such as participant observation involving long term presence in and research among a study population the first part of the book explores healing systems in different cultures the second and third provide a strong grounding in evolutionary and culture oriented analysis making clear the connections between biology and culture as they affect health the final part emphasizes case studies that apply the theoretical principles presented earlier to particular health topics for medical anthropology medical sociology public health nursing and medical training professionals
