this book focuses on the planning and design methods of pocket parks in the disciplines of urban planning and landscape architecture it fills the gap in the current pocket park planning by innovatively exploring the service mechanism and planning methods of the pocket parks to alleviate the scarcity of outdoor recreational spaces in the high density environments this book integrates the results of previous research and our latest research results taking urban renewal as the planning scenario the book systematically introduces the basic characteristics of mini parks planning principles and methods and development promotion and assurance strategies this book is used as a textbook for planning and design courses as well as a professional reference book for urban planners and landscape architects the authors have also made great efforts to use simple language and a large number of visual illustrations in the text through these approaches the authors expected that the publication of this book would not only facilitate teaching and practical application but also attract more interest and attention from ordinary people and motivate them to actively participate in the planning design

and management of mini parks around them only when this goal is achieved can the original value of mini park development be finally realized

park system planning products respond to national policies and result in structural urban elements and a range of park types global western ideology and local issues have influenced park system planning and the physical design of individual parks over time however in singapore the eastern literature has not addressed the development of parks and urban green spaces in terms of historical perspective this book traces the evolution of singapore s parks system from late colonial period to the present further it contextualizes the design and planning of parks in the general discourse on western and eastern traditions early 20th century western conceptions imported during colonialism modernism postmodernism and the contemporary ecological debate the publication reveals the interrelations between visual representations and changing political ideologies singapore s system of public parks is shown to represent an iconography created by the state one meant to deliver a certain message and to evoke a certain attitude and lifestyle its set of constructed narratives elucidates on the potential social and cultural roles of public parks however singapore s park system presents a novel paradigm for expanding asian cities characterized by evolving and ephemeral urban imaging strategies in framing singapore s case study within the broader perspective of eastern applications of western planning and design practices and constructions of nation in post colonial countries the manuscript establishes the contribution of the singaporean model of design and planning of parks to the international debate
