this popular up to date text provides a balanced in depth background to main ipe theoretical approaches examines ipe issues in historical perspective and discusses domestic international linkages based on the assumption that we can only understand the broader implications of current ipe issues by examining them in a theoretical and historical context this accessible introduction to ipe has been highly lauded by users and reviewers it focuses on three major themes or challenges in the post cold war era globalization north north relations and north south relations to tie concepts together for students it has been completely updated to provide a contemporary look at global political economy

praised for its authoritative coverage global political economy places the study of ipe in broad theoretical context and has been updated to cover the rise of populism brexit the usmca us china trade wars tariffs refugees and global

migration the keynesian monetarist debate fordism automation the gig economy global value chains climate change cryptocurrencies and the residual effects of global economic crises and regional relationships and impacts written by leading ipe scholar theodore cohn now joined by his prolific colleague andy hira this book equally emphasizes theory and practice to provide a framework for analyzing current events and long term developments in the global economy this text is suitable for both introductory and advanced ipe courses new to the eighth edition expands upon the growing us china competition in many areas of the global political economy discusses the problems brexit is posing for britain and the european union eu explores the growth of populism focuses more on environmental degradation climate change along with the increase in global migration incorporates a new theme of south south global economic relations highlights the relationship among economics geopolitics and security issues emphasizes the importance of global value chains looks at the potential for future global financial crises updates and expands the number of tables figures and graphics throughout provides an updated test bank and new powerpoint slides in an instructor s e resource

this text emphasizes regional as well as global relations it covers topics such as dollarization the problem of less developed countries foreign debt multinational corporations and the role of economic organizations a historical examination is also included

the global political economy of raúl prebisch offers an original analysis of global political economy by examining it through the ideas agency and influence of one of its most important thinkers leaders and personalities prebisch s ground breaking ideas as an economist the terms of trade thesis and the economic case for state led industrialization changed the world and guided economic policy across the global south as the head of two un bodies the economic commission for latin america and the caribbean eclac and later the united nations conference on trade and development unctad he was at the frontline of key north south political struggles for a fairer global distribution of wealth and the regulation of transnational corporations prebisch increasingly came to view political power not just economic capabilities as pivotal to shaping the institutions and rules of the world economy this book contextualizes his ideas exploring how they were used and their relevance to contemporary issues the neoliberal turn in economics in north america western europe and across the global south led to an active discrediting of prebisch s theories and this volume offers an important corrective reintroducing current and future generations of scholars and students to this important body of work and allowing a richer understanding of past and ongoing political struggles

the north american free trade agreement nafta was launched amid great hopes and controversy in 1994 more than a dozen years later progress toward economic integration has stalled mexico s economy remains far behind those of canada and the united states and such pressing issues as energy security remain unaddressed in requiem or revival scholars and policymakers from all three nations dissect nafta s failure to fulfill its early promise and evaluate the prospects for further integration the authors explore the interaction between regionalism and multilateralism the impact of the new trade agenda and nafta s unresolved problems migration security and energy recognizing the limits of the nafta framework they examine its relationship to the free trade agreement of the americas negotiations and the doha development round and they discuss various ways in which nafta could be revamped or improved the result is an intriguing volume offering important insights on the future of economic

integration in north america and beyond contributors include chantal blouin north south institute theodore h cohn simon fraser university emeritus i m destler university of maryland charles f doran johns hopkins university sais christina gabriel carleton university sergio gómez lora iqom inteligencia comercial jerry haar florida international university laura macdonald carleton university gordon mace université laval isidro morales university of the americas glauco oliveira university of southern california antonio ortiz mena cide jeffrey j schott peterson institute for international economics anne weston north south institute tamara woroby towson university johns hopkins university sais and jaime zabludovsky soluciones estratégicas

this edited book focuses primarily on contemporary debates and the critical and postmodern theories to be considered a significant contribution to the field this book shows that critical international relations theories which are incomprehensible and challenging are easy and understandable the book analyzes the frankfurt school constructivism post colonialism feminism critical geopolitics political economy copenhagen school aberystwyth school paris school and ontological security critical theories in international relations argues that neither identity nor security can be considered a fixed and objective issue can change according to time and space and depend on historical and sociological factors nothing is given for critical approaches and they are produced and reproduced in ever changing conditions that lead to new truths and meanings these are the results of reflexive and non linear interactions in this context it is made pedagogically understandable to the readers within this framework

while africa is too often regarded as lying on the periphery of the global political arena this is not the case african nations have played an important historical role in world affairs it is with this understanding that the authors in this volume set out upon researching and writing their chapters making an important collective contribution to our understanding of modern africa taken as a whole the chapters represent the range of research in african development and fully tie this development to the global political economy african nations play significant roles in world politics both as nations influenced by the ebbs and flows of the global economy and by the international political system but also as actors directly influencing politics and economics it is only through an understanding of both the history and present place of africa in global affairs that we can begin to assess the way forward for future development

this title was first published in 2001 containing a wide array of intellectual perspectives this illuminating text takes an authoritative look at the rules decision making procedures and organizational resources at the heart of the institutions of global governance and provides a much needed asian perspective on key issues dealing with new questions raised at the okinawa summit particularly suitable for graduate courses in political science international political economy international organizations corporate strategy and international business as well as having implications for the public policy community

cohn s topic of global trade is of enormous and proliferating interest he provides a good background from 1945 to the present and on core contemporary themes such as civil society participation and the domesticization of the trade agenda cohn s political science background will appeal direct to a university audience and a broader public policy market while also suitable for those interested in trade in the cognates of economics and law this work s theoretical framework

embraces and synthesizes the major approaches in the field of international relations and will be appropriate for the dominant schools of realists and liberal institutionalists alike this seminal work has been awarded the british columbia political science association weller prize for 2003

never highlight a book again virtually all of the testable terms concepts persons places and events from the textbook are included cram101 just the facts101 studyguides give all of the outlines highlights notes and quizzes for your textbook with optional online comprehensive practice tests only cram101 is textbook specific accompanys 9780205075836

this text emphasizes regional as well as global relations it covers topics such as dollarization the problem of less developed countries foreign debt multinational corporations and the role of economic organizations a historical examination is also included

icm 2010 proceedings comprises a four volume set containing articles based on plenary lectures and invited section lectures the abel and noether lectures as well as contributions based on lectures delivered by the recipients of the fields medal the nevanlinna and chern prizes the first volume will also contain the speeches at the opening and closing ceremonies and other highlights of the congress

this new second edition is intended to aid students in their study and appreciation of political scientists efforts to solve the analytical puzzles of political life the book provides a section by section overview of the main subfields of political science and includes an introduction plus two articles that exemplify each area of study

a comprehensive and detailed reference guide on the integrity and safety of oil and gas pipelines both onshore and offshore covers a wide variety of topics including design pipe manufacture pipeline welding human factors residual stresses mechanical damage fracture and corrosion protection inspection and monitoring pipeline cleaning direct assessment repair risk management and abandonment links modern and vintage practices to help integrity engineers better understand their system and apply up to date technology to older infrastructure includes case histories with examples of solutions to complex problems related to pipeline integrity includes chapters on stress based and strain based design the latter being a novel type of design that has only recently been investigated by designer firms and regulators provides information to help those who are responsible to establish procedures for ensuring pipeline integrity and safety
